

UNION POTTERIES' SCALE MEETS WITH LITTLE FAVOR

Officers of the N. B. of O. P. Say It Would Destroy Present Good Feeling.

THE MOTIVE BEHIND IT

As a Manufacturer Sees It, Is a Scheme to Force a Trust to Be Formed.

A PROPOSITION TURNED DOWN

At the Pittsburg Meeting, He Explains, Led to the Promulgation of a Threat—Kilmen Reject the New Scale—Other News.

The new scale of prices which the Union Potteries company proposes has been the sole topic of conversation and discussion in the meetings of both manufacturers and operatives in the jurisdiction of the Western Manufacturers' association.

It was claimed from the beginning that there was some motive behind the move that would sooner or later come to the surface. Among the more thoughtful members of the N. B. of O. P. the scale was looked upon with suspicion, and from the fact that this element had devoted a great deal of time to investigating the matter of selling price and rates of wages, under the provisions of the uniform scale of prices as they are enforced in this district, with the object of ascertaining whether or not the operatives were asking too much, the Union's course was regarded as a joke. They know that the list proposed by the Union would be an impossibility with the manufacturers who have agreed upon a certain selling price to be observed by the members of the United States Pottery's association.

In the light of this fact and the knowledge that the proposed list means an increase in wages that will amount to 30 per cent in every department of the plants controlled by this company, many operatives could see no other motive in the plan than to create a feeling of dissatisfaction between their real friends and the members of the Brotherhood. They feel sure that the new regulations will not be a permanent thing, and they will have none of it.

With the members of the United States association it is different. They have no difficulty in finding a solution of the somewhat mystifying proposition.

"When the association was in session at Pittsburg in December," says a prominent member of that body, "certain manufacturers were approached by A. M. Moreland, who proposed the formation of a gigantic trust in the pottery industry. He had a plan which looked well, and would, under ordinary circumstances, have tempted the average pottery man. However, the scheme was tabooed by all, and Mr. Moreland was not pleased. He used every argument at his command to make our people see the matter in the proper light, but the attempt was fruitless. He got no encouragement in any quarter, and made the statement that he would force the members of the association to leave the business of accede to his wishes.

"This declaration from Mr. Moreland was not taken seriously at the time, but it is now evident that he means to carry out the threat. This move for increasing the pay of the operatives is part of the plan. The increase in the pay of the men, it is acknowledged, will amount to 30 per cent all over the factory, and the fact that we know this concern is selling ware 20 per cent lower than the prices observed by our organization, makes it plain that this company has determined to carry out its threat to put the other pottery men to the wall."

Secretary T. J. Duffy was at the Union plant in this city yesterday morning and had a talk with Mr. Fowler. The gentleman told Mr. Duffy that the object of his company was to furnish some incentive for the men to make more and better ware. Mr. Duffy said today:

"The move on the part of the Union can have but one effect, if permitted to be carried out. Both manufacturers and men have been laboring for years to bring about conditions, with reference to the wages paid to operatives which would be satisfactory to both sides. They have accomplished this, and it is not our purpose

to permit any individual firm to interfere or spoil the present good feeling. If it can be avoided. If the company wishes to increase the output more could be accomplished in the way of better ware if the management would invest the money which it is proposed to pay in business, in increasing its bench room and other facilities. There are plenty of available workmen."

President Hughes arrived home from Cincinnati and Zanesville yesterday afternoon and when seen at headquarters this morning said:

"I certainly am strongly opposed to the new wage scale proposed by the Union. I saw it two weeks ago, and did not hesitate to condemn it. If there was not now a uniform list in effect here, I do not think the one in question would meet with the approval of our members. The statement has been made that this firm wants more work from its men, claiming much time is wasted. There is

R. H. Hartzell, a furniture dealer of Rochester, Pa., arrived in this city today and asked the assistance of Chief Thompson in locating an alleged impostor.

Hartzell says he was swindled out of \$18 worth of furniture by the fellow. The chief has a full description of his man, who is said to represent himself as a Catholic priest.

ON WEDNESDAY EVENING

Important Meeting of the City Republican Committee Will Be Held.

It was decided late this afternoon to call a meeting of the Republican city committee for next Wednesday evening.

The date will be fixed for the city primary at this meeting, and it is said some of the committeemen favor either March 15 or 22. The wishes of the candidates will be consulted, however, and a number of them would prefer a date some time during the month of February.

OF MUCH EXCELLENCE

Was the Entertainment By the Parker Concert Company Last Evening.

The entertainment in the high school course, given last evening by the Parker Concert company, was one of much excellence. The chief artists, under the direction of C. M. Parker, were: Miss Isabel Verne, soprano; Miss Pauline Lee, mezzo soprano; Mrs. C. M. Parker, contralto; Miss Martha Alexander, violinist; Miss Juanita Boynton, reciter.

Too much can scarcely be said in favor of Miss Boynton's readings or of her clever statue posings. A more accomplished elocutionist is rarely seen on any stage. Of the singers, Miss Verne perhaps won most favor with the audience, though the quartet and quintet songs were finely rendered.

The audience was large and most generous of its applause.

POTTERY AT YOUNGSTOWN

East Liverpool Men Interested in the Project Go to Mahoning Tomorrow.

A party of East End men, including Thomas V. Burton, E. M. Fisher and R. E. Larkins, also two men from Trenton, N. J., who are expected to arrive this evening, will leave tomorrow for Youngstown to attend a meeting of the board of trade of that city and consider a proposition for the establishment of a new pottery which will go to either Youngstown or Warren.

It has been intimated by letter that Youngstown will endeavor to make a more flattering offer than recently tendered, which was the bonus of a tract of land to afford a factory site, including a plat of town lots.

The gentlemen will take along with them samples of the kind of ware which the new plant will produce. They are vitreous china and said to be made from a body and glaze which is a secret to the Trenton people.

CROSS-COUNTY TROLLEY LINE

Scheme Again Revived, the Road This Time to Extend Down to Steubenville.

PART OF A BIG SYSTEM

By Which It Is Proposed to Connect Youngstown, Steubenville And the Large Towns of Columbiana. Work on Survey Promised Soon.

With the advent of winter weather it was generally predicted that cross-county electric railway projects would become caught in the freeze, not to be again sprung upon an anxious public until the appearance of the spring thaw, at least. However, that this is a mistaken theory, the following intelligence, said to be based on good authority, which is taken from a Lisbon paper, is self-evident:

"During the past 10 days J. J. Hensen and Thomas M. Goodman, of New York, and Theodore Ward, of Philadelphia, representing large New York and Pennsylvania interests, have been quietly working on a new scheme for the building of an electric line across this county.

"Their idea is to connect Wellsville with Steubenville, then build either from Wellsville or East Liverpool by way of West Point to Lisbon and Salem and probably on to Sebring to connect with the Stark electric line. They also intend to build a line to Youngstown, either from Salem by way of Canfield, or from a point near Franklin Square by way of Leetonia and Columbiana, and thence down Mill Creek to Youngstown.

"Mr. Hensel is an engineer of wide experience in railroad construction, and while he realizes that the cost of building a part of the proposed line will necessarily be heavy, namely the part between Lisbon and East Liverpool, he also knows that much of the north end will be comparatively light and has said that the average cost per mile would be even less than his people had figured on.

"It is understood arrangements are being made to organize at once and secure a charter, and that engineers will begin work on the location of the line within the next 30 days."

A party of 13 Pawnee Indians, in charge of Chief Smyea, who is 83 years old and almost seven feet high and weighing 300 pounds, were passengers on a Ft. Wayne railroad train yesterday afternoon on which a number of local people returned part way home from Lisbon.

The Indians were in charge of 12 cavalymen. Their mission to Washington is to endeavor to get an extension of time of a treaty made with their tribe by the government in 1846, which is about to expire.

HARMONY RULED AT THE MEETING

Republican Gathering at Lisbon Was Most Satisfactory In All Respects.

THE CHANGES IN THE RULES

Gratifying to Committeemen And Republicans Generally—The Object Is to Leave the Rank And File No Grounds for Complaint.

The meeting of Columbiana county Republicans held in Lisbon yesterday was the best attended and most harmonious that has assembled in many years.

The rules adopted were good ones, and if the primaries are not conducted in a manner which will be satisfactory to the candidates and voters, it will not be the fault of those who drafted them. The committee adopted very few of the clauses contained in the resolution brought before the committee a year ago by Judge P. M. Smith, of Wellsville.

Mr. Chamberlain and his committee took up the old rules and made a number of amendments. Several new and important regulations were added to the code, and the result was gratifying to both the committee and the party generally.

Hon. R. W. Tayler took occasion to say at the close of yesterday's session that the rules were most excellent ones, and if they were observed to the letter no one would have cause for complaint. He complimented the committee for their good judgment, and congratulated the party upon its good fortune in having the excellent system provided.

Mr. Chamberlain was interviewed yesterday and said: "The purpose of our committee was to see that the great mass of the party were protected. It has always been my desire to so conduct the primary elections that the wishes of the rank and file of the party be concurred in, and to so frame the rules that the majority of the members of the Republican party and not the county or township committeemen shall control the primaries."

The change in the manner of placing names for the position of committeemen on the ticket is thought to be a good one. With the three names selected in caucus there will be three blank spaces upon the ticket to enable anyone who was not present at the caucus to vote for anyone he chooses. The adoption of this rule will do away with a great deal of dissatisfaction in East Liverpool, where the claim has often been made that the city committeemen have too much authority. It will be remembered a few years ago a local rule was adopted requiring aspirants for central committee to file their names with the clerk of the committee after the manner pursued by other candidates, a certain length of time before the primary. So much objection was made that the plan was abandoned. It is now thought with the system in effect in every precinct in the county the voters will accustom themselves to it.

There were a number of clauses in the rules of Judge Smith which outlined the course to be taken by anyone having a grievance against primary election officers for neglect of duty or other irregularities. This the committee did not consider.

TWO PIONEER POTTERS

News of the Deaths of C. E. Hawthorne And Ralph Hammersly.

Charles E. Hawthorne, an old time potter, died recently in Indianapolis, Ind. He was born in Burslem, England, in 1819, and in 1847 came to East Liverpool, where he founded a pottery and operated it until 1850. He married Harriet James, of Cincinnati, in 1849 and the following year moved to Indianapolis. There he engaged in

the queensware business with Thomas Buehman, and in 1868 branched out into the wholesale business. Since then he has been engaged in traveling, a portion of the time in England. He gained a good property, was a Democrat and a respected citizen. He leaves no children.

Ralph Hammersly, said to be the oldest potter in the United States, long connected with the Rookwood pottery, died a few days ago in Indianapolis. He was well known in East Liverpool. When the Rookwood pottery was started in Cincinnati he became connected with it, and for many years was a valued employee. He was 78 years of age, and he and his wife celebrated their golden wedding some years ago. The account of his death was sent to this city by Isaac Dover, who is in the queensware business at Kingstown, Ind., to John Garner. Mr. Garner is an old resident here, and with many others, remembers the pioneer pottery workers of the city.

SEARCH ABANDONED

FOR THE BODY OF FRANK FELTS, DROWNED HERE.

Believed That the Swift Current Has Carried the Corpse Far Down Stream.

Search for the remains of Frank Felts, who was drowned near the wharf boat Sunday night, has been practically abandoned. Opinion of persons who are acquainted with the water and the channel is that exploration at that point will be useless and that the wisest plan is to await the discovery of the corpse when it rises to the surface.

During warm weather a body will rise in from two to four days after drowning, but in winter time it is usually nine or ten days before decomposition effects that turn.

Cards have been mailed by the chief of police to all towns below to be on the lookout for the body.

When the accident happened ice almost filled the river, and a stiff wind was blowing from the shore. The large packet, Keystone State, which was unloading freight, found it necessary to keep her wheel revolving to steady her against the wharf boat, and, as Felts was drowned on the south of the rear of the steamer it is probable that his body was washed well out into the channel and may have floated for a long distance.

Broken in pieces was the frail skiff which came in contact with the wheel. Just why Felts and his partner, Cunningham, were rowing around the boat at 10 o'clock on a severely cold night has not been satisfactorily explained, but a story of an overheard conversation has been related to the police department.

The drowned man's father, who resides at Williamstown, W. Va., has refused to render any assistance in looking to the recovery of the remains and has tendered no aid to the poor widow and her child. Mrs. Felts said last evening that she had not heard from any of the relatives of the deceased and that she had no relatives of her own. She and her little boy will remain in this city for a time, as they have no home.

WANTS HIS DEED

A Lisbon Man Sues a Woman on an Alleged Unfilled Contract.

Lisbon, January 18.—(Special)—Charles Horsefall has sued Mary Alice Horsefall, asking the court to compel on her part specific fulfillment of contract. The plaintiff alleges that while he was still a minor he purchased lot 445, in Firestone's addition to Lisbon for \$750.

The deed was made out in her name with the agreement that she would turn over the property to him when he became of legal age. He says that he has offered several times to complete his part of the contract, but she refuses to surrender the deed.

Abandons Pulpit for Oil.

Massillon, January 18.—Rev. Frank H. Simpson, for many years pastor of the First Church of Christ here, has resigned his pastorate and is devoting his time to promoting oil deals. He has organized companies to operate in Butler county, Pa., and is now forming one to operate in Van Wert county, O. It is said that he cleared \$8,000 in the last two months. He is a zealous advocate of Christian Science, and is said to have cured himself of consumption by faith.

Mrs. Elijah H. Kelly Overcome While at Work In Her Kitchen.

ALMOST DEAD WHEN FOUND

Physician Worked Three Hours Before Restoring Her to Consciousness.

HER SON WAS ALSO OVERCOME

But, in Falling, His Head Alighted By a Door Sill, Where He Could Breathe Fresh Air—Gas Escaped From a Kitchen Stove.

Overcome by gas, which did its work so quickly that she could make no outcry, Mrs. Elijah H. Kelly, residing on Daisy lane, near Calcutta road, lay for almost three hours in an unconscious state yesterday while a physician, who was summoned with all possible haste, resorted to almost every means known to science to save her from death.

Success finally rewarded his efforts, though his patient had an extremely close call. This morning she felt almost as well as ever, except for a severe headache.

Her son William was also overcome. He was in bed at the time his mother fell to the floor, and thinking she had fainted rushed to her assistance. No sooner had he reached her side than he, too, fell over. His head was near the door sill and he soon revived.

He rushed for a doctor, who soon detected the presence of escaping gas. Mrs. Kelly was revived with the great difficulty.

All the doors of the house were thrown open to allow the poisonous fumes to escape. The supposed cause of the trouble is that the gas in a cook stove was turned on too full.

Mrs. Kelly, at the time she fell, held a large butcher knife in her hand, but escaped being cut.

A FAMOUS ROAD CASE

Decided for the Sixth Time—Other Matters in Probate Court.

Lisbon, January 18.—(Special)—In the suit of John Patterson versus Lizzie Pollock et al, the decision is in favor of the defendant. Patterson lives in Elkrum township. Three or four years ago he sued the Pollocks to compel them to keep open a private roadway through their farm. Twice before he had petitioned the township trustees to compel the Pollocks to allow him the use of the road.

The case has been tried once in common pleas court and for the third time in probate court. Each time the decision has been against Patterson.

The case of W. C. Speaker against W. S. Potts, administrator of Peter Speaker, of Center township, has been decided in favor of the plaintiff. The suit was to compel a distribution of funds in the administrator's hands. The decision awards \$393 to the plaintiff.

Charles H. Fraser, of Wellsville, has filed application for the admission of Bertha May Gould, of Wellsville, to the Ohio hospital for epileptics. The case is set for hearing next Monday.

Robert W. King, executor of the estate of Daniel McAllister, late of Hanover township, reports that he has been unable to sell at private sale the property ordered sold. Therefore the court has ordered a public sale.

POISONOUS FUMES OF GAS NEARLY CAUSE A FATALITY

the queensware business with Thomas Buehman, and in 1868 branched out into the wholesale business. Since then he has been engaged in traveling, a portion of the time in England. He gained a good property, was a Democrat and a respected citizen. He leaves no children.

Ralph Hammersly, said to be the oldest potter in the United States, long connected with the Rookwood pottery, died a few days ago in Indianapolis. He was well known in East Liverpool. When the Rookwood pottery was started in Cincinnati he became connected with it, and for many years was a valued employee. He was 78 years of age, and he and his wife celebrated their golden wedding some years ago. The account of his death was sent to this city by Isaac Dover, who is in the queensware business at Elkrum, Ind., to John Garner. Mr. Garner is an old resident here, and with many others, remembers the pioneer pottery workers of the city.

SEARCH ABANDONED

FOR THE BODY OF FRANK FELTS, DROWNED HERE.

Believed That the Swift Current Has Carried the Corpse Far Down Stream.

Search for the remains of Frank Felts, who was drowned near the wharf boat Sunday night, has been practically abandoned. Opinion of persons who are acquainted with the water and the channel is that exploration at that point will be useless and that the wisest plan is to await the discovery of the corpse when it rises to the surface.

During warm weather a body will rise in from two to four days after drowning, but in winter time it is usually nine or ten days before decomposition effects that turn.

Cards have been mailed by the chief of police to all towns below to be on the lookout for the body.

When the accident happened ice almost filled the river, and a stiff wind was blowing from the shore. The large packet, Keystone State, which was unloading freight, found it necessary to keep her wheel revolving to steady her against the wharf boat, and, as Felts was drowned on the south of the rear of the steamer it is probable that his body was washed well out into the channel and may have floated for a long distance.

Broken in pieces was the frail skiff which came in contact with the wheel. Just why Felts and his partner, Cunningham, were rowing around the boat at 10 o'clock on a severely cold night has not been satisfactorily explained, but a story of an overheard conversation has been related to the police department.

The drowned man's father, who resides at Williamstown, W. Va., has refused to render any assistance in looking to the recovery of the remains and has tendered no aid to the poor widow and her child. Mrs. Felts said last evening that she had not heard from any of the relatives of the deceased and that she had no relatives of her own. She and her little boy will remain in this city for a time, as they have no home.

WANTS HIS DEED

A Lisbon Man Sues a Woman on an Alleged Unfilled Contract.

Lisbon, January 18.—(Special)—Charles Horsefall has sued Mary Alice Horsefall, asking the court to compel on her part specific fulfillment of contract. The plaintiff alleges that while he was still a minor he purchased lot 445, in Firestone's addition to Lisbon for \$750.

The deed was made out in her name with the agreement that she would turn over the property to him when he became of legal age. He says that he has offered several times to complete his part of the contract, but she refuses to surrender the deed.

Abandons Pulpit for Oil.

Massillon, January 18.—Rev. Frank H. Simpson, for many years pastor of the First Church of Christ here, has resigned his pastorate and is devoting his time to promoting oil deals. He has organized companies to operate in Butler county, Pa., and is now forming one to operate in Van Wert county, O. It is said that he cleared \$8,000 in the last two months. He is a zealous advocate of Christian Science and is said to have cured himself of consumption by faith.

Mrs. Elijah H. Kelly Overcome While at Work In Her Kitchen.

ALMOST DEAD WHEN FOUND

Physician Worked Three Hours Before Restoring Her to Consciousness.

HER SON WAS ALSO OVERCOME

But, in Falling, His Head Alighted By a Door Sill, Where He Could Breathe Fresh Air—Gas Escaped From a Kitchen Stove.

Overcome by gas, which did its work so quickly that she could make no outcry, Mrs. Elijah H. Kelly, residing on Daisy lane, near Calcutta road, lay for almost three hours in an unconscious state yesterday while a physician, who was summoned with all possible haste, resorted to almost every means known to science to save her from death.

Success finally rewarded his efforts, though his patient had an extremely close call. This morning she felt almost as well as ever, except for a severe headache.

Her son William was also overcome. He was in bed at the time his mother fell to the floor, and thinking she had fainted rushed to her assistance. No sooner had he reached her side than he, too, fell over. His head was near the door sill and he soon revived.

He rushed for a doctor, who soon detected the presence of escaping gas. Mrs. Kelly was revived with the great difficulty.

All the doors of the house were thrown open to allow the poisonous fumes to escape. The supposed cause of the trouble is that the gas in a cook stove was turned on too full.

Mrs. Kelly, at the time she fell, held a large butcher knife in her hand, but escaped being cut.

A FAMOUS ROAD CASE

Decided for the Sixth Time—Other Matters in Probate Court.

Lisbon, January 18.—(Special)—In the suit of John Patterson versus Lizzie Pollock et al, the decision is in favor of the defendant. Patterson lives in Elkrum township. Three or four years ago he sued the Pollocks to compel them to keep open a private roadway through their farm. Twice before he had petitioned the township trustees to compel the Pollocks to allow him the use of the road.

The case has been tried once in common pleas court and for the third time in probate court. Each time the decision has been against Patterson.

The case of W. C. Speaker against W. S. Potts, administrator of Peter Speaker, of Center township, has been decided in favor of the plaintiff. The suit was to compel a distribution of funds in the administrator's hands. The decision awards \$393 to the plaintiff.

Charles H. Fraser, of Wellsville, has filed application for the admission of Bertha May Gould, of Wellsville, to the Ohio hospital for epileptics. The case is set for hearing next Monday.

Robert W. King, executor of the estate of Daniel McAllister, late of Hanover township, reports that he has been unable to sell at private sale the property ordered sold. Therefore the court has ordered a public sale.

LOSES FOUR FINGERS

A Signal Man Meets With a Mishap at a Planing Mill.

Lisbon, January 18.—(Special)—Jefferson E. Dickey, while at work at his planing mill at Signal this morning had his hand cut. Four fingers will have to be amputated.

Guests Brought Tinware.

A number of young friends of Mr. and Mrs. Joseph Davis, a bride and groom of the East End, called upon them last night. Each guest brought a piece of tinware as a reminder of the household responsibilities of the young wife. Games were a feature of the evening. Refreshments were served and an enjoyable evening was had by all present.

EAST END UNDER A BIG STONE

Elijah Fetrow Was Pinioned And Narrowly Escaped Being Crushed.

Elijah Fetrow, who lives near Dry Run, and James Cowan were hauling stone from a hillside back of Columbian park yesterday. In hauling a large square boulder that weighed a ton or more behind a team of mules, Cowan was driving and Fetrow was walking by the side of the stone.

The chain suddenly slipped and the stone rolled quickly to one side toward Cowan, who endeavored to jump but fell. As he dropped into a low spot the full weight of the rock did not crush him, but he was pinioned to the earth, his right shoulder and arm being bruised. By speedy efforts Cowan managed to release him.

An Attack of Pneumonia Warded Off.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by Alvin H. Bulger, Druggist.

FINE WATER CRESS, "IT'S GREEN." EAST LIVERPOOL'S BUSIEST STORES, GEON BROS.

TO THOSE WHO DRINK
Meredith's Diamond Club Pure Rye Whiskey.

It is suggested that the addition of water, still or carbonated, does not in the slightest affect the unmistakable flavor and aroma which are peculiar to it.

A Diamond Club High Ball or Rickey is the best there is.

EAST END UNDER A BIG STONE

Elijah Fetrow Was Pinioned And Narrowly Escaped Being Crushed.

Elijah Fetrow, who lives near Dry Run, and James Cowan were hauling stone from a hillside back of Columbian park yesterday. In hauling a large square boulder that weighed a ton or more behind a team of mules, Cowan was driving and Fetrow was walking by the side of the stone.

The chain suddenly slipped and the stone rolled quickly to one side toward Cowan, who endeavored to jump but fell. As he dropped into a low spot the full weight of the rock did not crush him, but he was pinioned to the earth, his right shoulder and arm being bruised. By speedy efforts Cowan managed to release him.

BACK FROM MANILA

Isaac and John Shingleton Return From Service For Uncle Sam.

Isaac Shingleton and son, John Shingleton, have returned from the Philippines where they have completed a three-years' enlistment with Company A, Twelfth regiment. They did garrison duty near Manila much of the time, but were in several hot engagements with Filipinos on the island of Luzon.

Neither received any injuries, but they do not wish to re-enlist.

Dislocated His Wrist.

While running a footrace with a companion last evening, James Richardson, aged 21, who works at the National pottery, fell. The large bone of his right wrist was thrown out of place and a physician had to be summoned to the residence of Edward Wilson, on Island avenue, during the night to allay his suffering.

Suit for Wages.

The case of W. L. Bennett against John C. Mushrush, which was to have been tried this morning before Justice L. W. Carman was postponed for one week on account of the illness of the plaintiff. He claims \$22 due for services as clerk in Mushrush's store, recently closed by the constable.

Wedding Tonight.

The marriage of William M. Barrymore and Miss Rosa Lawson will be solemnized this evening at the residence of the bride's parents, Mr. and Mrs. William Lawson, near the Horace Mann school building.

EAST END AFFAIRS.

Charles Wright is ill with typhoid fever at his home in Dixonville.

Rev. W. E. Hill has moved into his new residence on Ohio avenue.

A drainage well, 12 feet in depth, is being dug at the American sewer pipe works.

Ground was broken on Pennsylvania avenue by John White for a new seven room dwelling this morning.

The youngest child of Fire Captain Terrence is seriously ill with pneumonia at his home on First venue.

Ruby Reed, the five-year-old daughter of Mr. and Mrs. David Reed, is very low with typhoid fever at their home in Henena.

An Attack of Pneumonia Warded Off.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by Alvin H. Bulger, Druggist.

300 PROBABLY DEAD.

As Many More Thought Injured, by Earthquake Shock, in Mexico.

CAPITOL AND CHURCH RUINED

Also Many Business Houses and Residences Destroyed at Chilpancingo, in the State of Guerrero. Details of the Catastrophe Meagre.

Mexico City, Jan. 18.—One of the most terrible catastrophes ever recorded in the State of Guerrero, is reported to have occurred late Thursday afternoon, when an extremely violent earthquake shock was felt at Chilpancingo, causing a great loss of life and injuring many persons. Details Very Meagre.

Details from the stricken district are very meagre, but scattering reports received here indicate that probably 300 persons were killed and as many more injured. It is known that the State capitol, the parish church and many business houses and residences are in ruins, and there is much suffering, as a result of the awful seismic disturbance. One of the edifices that suffered most was the Federal telegraph office, which explains the paucity of news that has reached this city so far. Later meagre details began to arrive here. The telegraph lines and apparatus at Chilpancingo were badly damaged, but the employees, all of whom were injured, quickly proceeded to erect an improvised telegraph office on the outskirts of the city.

The number of deaths was greater in the parish church than in any single place as a crowd of worshippers were gathered there for the afternoon service. The solid masonry-walled roof came toppling down on the worshippers as if it had been wrenched from its bearings by a thousand strong hands. Several people were killed there.

The war department has ordered the troops in the neighborhood to cooperate in the work of rescue. Until this work is completed it will be impossible to learn accurately the number of victims. It is believed, however, that this is one of the most destructive seismic phenomena that has occurred in Mexico. The greater part of the people of Chilpancingo are now camping out under trees around the town, which is five days' journey from the national capital. Earthquake shocks were felt in many other cities and towns.

Damage in Mexico City.

In Mexico City the earthquake took place at 5:17 Thursday afternoon, and was of such violence as to shake the most substantial buildings. The Pan-American congress was in session at this time, and many of the delegates were greatly alarmed. The first movement was one of trepidation and was very sharp. It was followed by an easier oscillatory movement north-northeast to south-southwest. The duration was 55 seconds. The damage in the city was only slight.

The State of Guerrero has always been the focus of seismic disturbances. Reports received here last night state that the shock was very severe at Laalapa. No casualties are so far reported from there.

A MYSTERIOUS CRIME.

A Horse and Buggy Stopped Before Barn Without a Driver.

Coffeen, Ill., Jan. 18.—A horse and buggy stopped in front of a livery barn here Thursday night without a driver. Investigation showed the buggy contained the dead body of Miss Gertrude Clifford, who lived near Donnellson, and Fred Brockman, unconscious, and almost dead.

Miss Clifford was taken to an undertaking establishment and Brockman was given medical attention. He was restored to consciousness and put under arrest. The girl's death was caused by a bullet wound through the temple. Brockman had two bullet wounds in the head. It is doubtful whether he will live.

When asked about the affair he refused to say anything except that a letter would be found in the buggy.

How About Your Heart

Feel your pulse a few minutes. Is it regular? Are you short of breath, after slight exertion as going up stairs, sweeping, walking, etc? Do you have pain in left breast, side or between shoulder blades, choking sensations, fainting or smothering spells, inability to lie on left side? If you have any of these symptoms you certainly have a weak heart, and should immediately take

Dr. Miles' Heart Cure

Mr. E. H. Oaks of Jamestown, N. Y., whose genial face appears above, says: "Excessive use of tobacco seriously affected my heart. I suffered severe pains about the heart, and in the left shoulder and side; while the palpitation would awaken me from my sleep. I began taking Dr. Miles' Heart Cure and soon found permanent relief."

Sold by all Druggists, Dr. Miles Medical Co., Elkhart, Ind.

to explain matters. The letter was found in his overcoat. Officers took charge of it and declined to make public its contents.

Miss Clifford was a member of a highly respected family near Donnellson, and was about 20 years of age.

Fred Brockman is 20 years of age, a son of Hiram Brockman, of Coffeen.

UNABLE TO SEE SIGNALS.

New York Central Superintendent Admitted Old Engineers Ran Past Them.

New York, Jan. 18.—Joseph H. Franklin, manager of the New York Central roads terminal in this city, was yesterday recalled as a witness in the coroner's inquest to determine the responsibility for the recent wreck in the company's tunnel, in which 17 lives were lost.

Answering District Attorney Jerome, Mr. Franklin said: "There was nothing to prevent an engineer from making a terrible mistake except the signals, and that even old engineers had run past these signals in broad daylight."

Reports of engineers were offered in evidence. One engineer said he had missed the distance signal, had run by the green precautionary light and then had gone a whole train length beyond the signal before being able to bring his train to a stop. The testimony of other engineers was on similar lines.

William Kinch, superintendent of signals for the New York Central road, said that the signals worked properly on the day of the wreck, said that the disaster was due to excessive speed and disregard of the signals by the engineer. After some comparatively unimportant testimony an adjournment was taken until next Monday morning.

A TARIFF COMBINE

AGAINST GERMANY.

Vienna, Jan. 18.—Austria and Russia, it is stated, have agreed to combine in a tariff war system against Germany if the German tariff system is made a law. Roumania and Serbia, it is further stated, have signified their readiness to adopt similar measures and a European league against Germany is probable.

Rev. Brewster Called.

Cumberland, Md., Jan. 18.—The vestry of Emanuel Episcopal church has extended a unanimous call to Rev. Benjamin Brewster, rector of Grace church, Colorado Springs. Col. Mr. Brewster is a native of New Haven, and a graduate of Yale.

COUNTY AND NEIGHBORHOOD

Steubenville citizens are making a strong play for a new county jail.

Daniel Pritchard, the oldest resident of Beaver county, Pa., is dead. He was 99 years of age.

Phillip Belveal, a Steubenville carpenter, fell from a scaffold and had several ribs broken.

Sheriff Gilson arrested John Kelly, of Bergholz at Salineville yesterday. He was indicted for selling in a local option township.

New Alexandria has quarantined against Mingo, and revival meetings in progress at the former town have been discontinued.

Frank Lacour, a brakeman, aged 22, was crushed under the wheels of a car in the Conway yards and died a few hours later in the Beaver county hospital.

L. W. Faust, a farmer of Fredericktown, Knox county, has succeeded in teaching his dog to smoke a pipe, which the animal does with evident satisfaction.

George Vaughn, a prominent contractor, is under arrest at Youngstown charged with having attempted an assault on Mrs. Stephen Roberts, wife of a mill worker.

"Bub" Walton was arrested at Martin's Ferry yesterday charged with being implicated in the robbery of Mrs. Joseph Gehring at that city last Saturday evening, when a satchel containing \$1,400 was stolen from the woman.

Regulations issued by the Brilliant board of health provide that no children shall be admitted to the schools who have not been vaccinated within the preceding five years. Physicians are required to wear rubber suits when attending smallpox patients.

ONLY PIPE DREAMS

The Italian Who Told Shocking Stories of Murder at Mingo Is Crazy.

Steubenville, January 18.—The Italian laborer, who told a harrowing story of murder and torture to employees of the Wabash railroad in West Virginia, has been adjudged crazy by the local officers and shipped to Pittsburgh. After he started the citizens of Mingo with the story of the shocking crimes, he came to this city and late last night he ran up a principal street yelling and whooping, until he fell into the hands of the police. He was taken to the mayor's office, where he told another story of a robbery at the W. & L. E. depot in this city, in which he said he had been relieved of all his money. His clothes were searched and a considerable sum was found, which dispelled his story of a robbery. As he appeared demented he was kept in the lockup over night and this morning put aboard a train for Pittsburgh.

Burglars' Bold Job.

Steubenville, January 18.—Burglars on Thursday night entered and looted the Southern Supply company's store in this city. Entrance was effected by tearing a hole in the 24-inch wall under a window; after an unsuccessful attempt to enter the back door. The robbers secured a wagonload or more of plunder besides a sum of money in the cash drawer. There are no clues.

Personal.

The lady who had to leave the donation party the other night before it was over will please call at our drug store and get a bottle of Dr. Caldwell's Syrup Pepsin. 300 PROBABLY DEAD.

As Many More Thought Injured, by Earthquake Shock, in Mexico.

CAPITOL AND CHURCH RUINED

Also Many Business Houses and Residences Destroyed at Chilpancingo, in the State of Guerrero. Details of the Catastrophe Meagre.

Mexico City, Jan. 18.—One of the most terrible catastrophes ever recorded in the State of Guerrero, is reported to have occurred late Thursday afternoon, when an extremely violent earthquake shock was felt at Chilpancingo, causing a great loss of life and injuring many persons. Details Very Meagre.

Details from the stricken district are very meagre, but scattering reports received here indicate that probably 300 persons were killed and as many more injured. It is known that the State capitol, the parish church and many business houses and residences are in ruins, and there is much suffering, as a result of the awful seismic disturbance. One of the edifices that suffered most was the Federal telegraph office, which explains the paucity of news that has reached this city so far. Later meagre details began to arrive here. The telegraph lines and apparatus at Chilpancingo were badly damaged, but the employees, all of whom were injured, quickly proceeded to erect an improvised telegraph office on the outskirts of the city.

The number of deaths was greater in the parish church than in any single place as a crowd of worshippers were gathered there for the afternoon service. The solid masonry-walled roof came toppling down on the worshippers as if it had been wrenched from its bearings by a thousand strong hands. Several people were killed there.

The war department has ordered the troops in the neighborhood to co-operate in the work of rescue. Until this work is completed it will be impossible to learn accurately the number of victims. It is believed, however, that this is one of the most destructive seismic phenomena that has occurred in Mexico. The greater part of the people of Chilpancingo are now camping out under trees around the town, which is five days' journey from the national capital. Earthquake shocks were felt in many other cities and towns.

Damage in Mexico City.

In Mexico City the earthquake took place at 5:17 Thursday afternoon, and was of such violence as to shake the most substantial buildings. The Pan-American congress was in session at this time, and many of the delegates were greatly alarmed. The first movement was one of trepidation, and was very sharp. It was followed by an easier oscillatory movement north-northeast to south-southwest. The duration was 55 seconds. The damage in the city was only slight.

The State of Guerrero has always been the focus of seismic disturbances. Reports received here last night state that the shock was very severe at Oaxaca. No casualties are so far reported from there.

In duration the Chilpancingo shock was less prolonged than that in Mexico City, having lasted 50 seconds, against 55 seconds at the capital.

A MYSTERIOUS CRIME.

A Horse and Buggy Stopped, Before Barn Without a Driver.

Coffeen, Ill., Jan. 18.—A horse and buggy stopped in front of a livery barn here Thursday night without a driver. Investigation showed the buggy contained the dead body of Miss Gertrude Clifford, who lived near Donnellson, and Fred Brockman, unconscious and almost dead.

Miss Clifford was taken to an undertaking establishment and Brockman was given medical attention. He was restored to consciousness and put under arrest. The girl's death was caused by a bullet wound through the temple. Brockman had two bullet wounds in the head. It is doubtful whether he will live.

When asked about the affair he refused to say anything except that a letter would be found in the buggy.

How About Your Heart

Feel your pulse a few minutes. Is it regular? Are you short of breath, after slight exertion as going up stairs, sweeping, walking, etc? Do you have pain in left breast, side or between shoulder blades, choking sensations, fainting or smothering spells, inability to lie on left side? If you have any of these symptoms you certainly have a weak heart, and should immediately take

Dr. Miles' Heart Cure

Mr. F. H. Oaks of Jamestown, N. Y., whose genial face appears above, says: "Excessive use of tobacco seriously affected my heart. I suffered severe pains about the heart, and in the left shoulder and side, while the palpitation would awaken me from my sleep. I began taking Dr. Miles' Heart Cure and soon found permanent relief."

Sold by all Druggists, Dr. Miles Medical Co., Elkhart, Ind.

to explain matters. The letter was found in his overcoat. Officers took charge of it and declined to make public its contents.

Miss Clifford was a member of a highly respected family near Donnellson, and was about 20 years of age.

Fred Brockman is 20 years of age, a son of Hiram Brockman, of Coffeen.

UNABLE TO SEE SIGNALS.

New York Central Superintendent Admitted Old Engineers Ran Past Them.

New York, Jan. 18.—Joseph H. Franklin, manager of the New York Central roads terminal in this city, was yesterday recalled as a witness in the coroner's inquest to determine the responsibility for the recent wreck in the company's tunnel, in which 17 lives were lost.

Answering District Attorney Jerome, Mr. Franklin said: "There was nothing to prevent an engineer from making a terrible mistake except the signals, and that even old engineers had run past these signals in broad daylight."

Reports of engineers were offered in evidence. One engineer said he had missed the distance signal, had run by the green precautionary light and then had gone a whole train length beyond the signal before being able to bring his train to a stop. The testimony of other engineers was on similar lines.

William Kinch, superintendent of signals for the New York Central road, said that the signals worked properly on the day of the wreck, said that the disaster was due to excessive speed and disregard of the signals by the engineer. After some comparatively unimportant testimony an adjournment was taken until next Monday morning.

A TARIFF COMBINE

AGAINST GERMANY.

Vienna, Jan. 18.—Austria and Russia, it is stated, have agreed to combine in a tariff war system against Germany if the German tariff system is made a law. Roumania and Serbia, it is further stated, have signified their readiness to adopt similar measures and a European league against Germany is probable.

Rev. Brewster Called.

Cumberland, Md., Jan. 18.—The vestry of Emmanuel Episcopal church has extended a unanimous call to Rev. Benjamin Brewster, rector of Grace church, Colorado Springs, Col. Mr. Brewster is a native of New Haven, and a graduate of Yale.

COUNTY AND NEIGHBORHOOD

Steubenville citizens are making a strong play for a new county jail.

Daniel Pritchard, the oldest resident of Beaver county, Pa., is dead. He was 99 years of age.

Phillip Belveal, a Steubenville carpenter, fell from a scaffold and had several ribs broken.

Sheriff Gilson arrested John Kelly, of Bergholz at Salineville yesterday. He was indicted for selling in a local option township.

New Alexandria has quarantined against Mingo, and revival meetings in progress at the former town have been discontinued.

Frank Lacour, a brakeman, aged 22, was crushed under the wheels of a car in the Conway yards and died a few hours later in the Beaver county hospital.

L. W. Faust, a farmer of Fredericktown, Knox county, has succeeded in teaching his dog to smoke a pipe, which the animal does with evident satisfaction.

George Vaughn, a prominent contractor, is under arrest at Youngstown charged with having attempted an assault on Mrs. Stephen Roberts, wife of a mill worker.

"Bub" Walton was arrested at Martin's Ferry yesterday charged with being implicated in the robbery of Mrs. Joseph Gehring at that city last Saturday evening, when a satchel containing \$1,400 was stolen from the woman.

Regulations issued by the Brilliant board of health provide that no children shall be admitted to the schools who have not been vaccinated within the preceding five years. Physicians are required to wear rubber suits when attending smallpox patients.

ONLY PIPE DREAMS

The Italian Who Told Shocking Stories of Murder at Mingo Is Crazy.

Steubenville, January 18.—The Italian laborer, who told a harrowing story of murder and torture to employees of the Wabash railroad in West Virginia, has been adjudged crazy by the local officers and shipped to Pittsburgh. After he startled the citizens of Mingo with the story of the shocking crimes, he came to this city and late last night he ran up a principal street yelling and whooping, until he fell into the hands of the police. He was taken to the mayor's office, where he told another story of a robbery at the W. & L. E. depot in this city, in which he said he had been relieved of all his money. His clothes were searched and a considerable sum was found, which dispelled his story of a robbery. As he appeared demented he was kept in the lockup over night and this morning put aboard a train for Pittsburgh.

Burglars' Bold Job.

Steubenville, January 18.—Burglars on Thursday night entered and looted the Southern Supply company's store in this city. Entrance was effected by tearing a hole in the 24-inch wall under a window; after an unsuccessful attempt to enter the back door. The robbers secured a wagonload or more of plunder besides a sum of money in the cash drawer. There are no clues.

Once more the cross-county street
 railway project is being agitated. As
 usual, it is outsiders who are project-
 ing the lines and who are expected
 to pay for them. The fate which has
 overtaken numerous schemes of the
 same sort ought to teach the home
 people a lesson. That is, if they are
 in earnest in desiring to have an elec-
 tric railway from East Liverpool to
 the county seat—and nine-tenths of
 the people of both towns, as well as
 those along the route desire it—they
 should demonstrate their interest by
 taking up the matter and pledging
 their assistance. Money talks. If Col-
 umbiana county capitalists would get
 together and subscribe a portion of
 the money that would be required to build
 such a road, there would be little
 difficulty in getting outsiders to put
 up the rest. The investment, we be-
 lieve, would be a paying one, in a very
 short time, if not at the start. Home
 capital invested would insure the plac-
 ing of local business men upon the
 board of directors, and they, famil-
 iar with the wants of the people,
 would be in a position to materially
 assist in securing prudent manage-
 ment. Street railways are being built
 in many sections of the county con-
 necting far less important towns than
 East Liverpool and Lisbon, but it will
 be noted that in almost every instance
 local capital is a factor in building
 them. There are very few trolley
 roads that are not profitable to their
 owners, and the great majority of
 them are growing more valuable very
 rapidly. An opportunity for great
 possible profit, as well as lasting ben-
 efit to a large section of the county,
 should not be overlooked by our citi-
 zens.

Good progress is being made to-
 ward the establishment of civil rule
 in the Philippines, and bills are now
 pending in congress looking to the
 more rapid extension of the system.
 But it must be remembered that, in
 the nature of things, for a good
 many years to come, whatever laws
 may be enacted, soldiers will be need-
 ed, to cooperate with the civil au-
 thorities in maintaining order in the
 islands. It is highly probable that ere
 long native Filipinos, under the com-
 mand of American officers, can be em-
 ployed to advantage in this work. In-
 deed, some experiments of this sort
 were tried some time ago and were
 reported to work well. Great Britain,
 in several of her possessions in India,
 depends largely upon native soldiers.
 The sooner the Filipinos can be taught
 to co-operate in governing themselves
 the better for them, to say nothing
 of the lessening of expenses to this
 government.

A representative of the German
 navy who recently visited American
 shipbuilding plants reports to the em-
 peror that he found in this country
 "a splendid body of workmen earning
 wages from 30 to 50 per cent higher
 than those paid in Great Britain and
 100 per cent higher than those paid
 on the continent." What most im-
 pressed him in this country was the
 large use of labor-saving machinery,
 especially of the pneumatic boring,
 hammering and riveting machines,
 which, while familiar in the United
 States, are almost unknown in Eu-
 rope. He adds that materials for the
 construction of steel ships are lower
 here than in any other country.

Canada is able to count only 5,369,
 666 Canadians in her census. Had the
 enumerators looked on this side of
 the border they could have swelled

the figures materially. Thousands of
 the brightest and most ambitious
 young Canadians, when they start to
 make a home, come over to Uncle
 Sam's territory to do so.

The Republican county committee's
 new rules for the regulation of pri-
 mary elections are a long step in the
 right direction. Diligently lived up
 to, they can scarcely fail to prove
 beneficial.

They have discovered gold out in
 Kansas, but the greatest yield of gold
 still comes from their wheat and corn.

 invited.

Two Games of Basket Ball.

Two games of basket ball were play-
 ed last evening at the Y. M. C. A. The
 game between Louthan's and Armour's
 teams resulted in a score of 42 to 15 in
 favor of Louthan. A game between
 the Rigby and Green teams was won
 by Rigby, the score being 42 to 15.

PINX.

Life's day is short, the evening bell
 Soon solemnly will toll
 O'er us, to earth, our last farewell.
 O man, where goes thy soul?
 A few short hours of pain, of tears,
 Of striving toward some goal,
 (That phantom fades as evening
 nears),
 O man, where goes thy soul?

Though we may reach some plane sub-
 lime,
 Our names etch on fame's scroll,
 What matters that at evening time,
 O man, where goes thy soul?

AT THE THEATER

A play that is true to life, especially
 one that depicts human nature in both
 humorous and pathetic models, always
 is successful. The more absolute
 fidelity, the greater its success. This,
 in a great measure, accounts for the
 enormous popularity of "Lovers'
 Lane," which, after playing five
 months in New York and all summer
 in Chicago, will come to the opera
 house for the stage hands benefit
 next Tuesday night. Clyde Fitch has
 cleverly depicted in this delightful
 play of small town life, many real life
 happenings that have excited recent
 comment in the newspapers.

"Are You a Mason?" will be pre-
 sented at the opera house for the
 Knights of Pythias benefit January
 27. In "Are You a Mason?" Rich &
 Harris possess the most successful
 farce of recent years. It is an adap-
 tation from the German of Laufs &
 Kratz. "Are You a Mason?" is a model
 of its kind. A farce comedy that is
 one, clean, bright, laughable, re-
 plete with smart dialogue, the apothe-
 osis of farce and intelligent stage
 craft.

Found Dead in a Hotel.

Steubenville, January 18.—George
 W. Wallace, aged about 48, who for a
 number of years has conducted the
 livery business at Brilliant, was found
 dead in bed at the Dewey hotel, in
 this city, about 12 o'clock Thursday
 night by the porter. An empty box,
 which had contained morphine, was
 found in his room, which would indi-
 cate suicide, though his friends think
 he took the drug to induce sleep and
 unknowingly got too much.

UNION POTTERIES' SCALE.

(Continued from First Page.)

not another industry in America in
 which the workmen are more addicted
 to the habit of placing watches and
 clocks before them for the purpose
 of timing the progress of their work.
 The proposed scale will not only tend
 to produce inferior work, but inferior
 workmen."

Kilnmen's local No. 9 turned down
 the proposition presented to the kiln-
 men of the Union pottery at a meet-
 ing in Brotherhood hall last evening.
 Not for two years has the attendance
 been so large, it being estimated that
 over 200 kilnmen were present. After
 routine business was completed a
 statement was made to the local by
 National Treasurer John T. Wood,
 relative to the proposition of the
 Union, after which every phase of the
 proposition was considered and it was
 decided to a man to reject the offer
 of the Union company. It is the de-
 sire of the kilnmen to stand by the
 uniform wage scale, and not to alter
 any portion of the present agreement
 until after its expiration.

Treasurer John T. Wood left this
 morning for New Cumberland, spend-
 ing several hours at the Chelsea pot-
 tery, advising the workmen of that
 plant of the action taken by kiln-
 men's local No. 9 last evening. It is
 said that officials of No. 9 had been
 advised that some employees of the
 Chelsea had looked with favor on
 the new proposition of the Union
 company. Mr. Wood is expected home
 this evening and will make a report
 of his visit at the next meeting of the
 local.

In response to a telegram sent to
 A. M. Moreland, president of the
 Union Pottery company, this morn-
 ing, regarding the action of the kiln-
 men, the News Review this afternoon
 received the following message:

"Our position was fully defined in
 the telegram sent to the News Review
 Wednesday."

Official announcement has been
 made that within a few weeks the
 warehouse employees of the Union pot-
 tery in this city, and also at the Chelsea,
 at New Cumberland, will be asked
 to work only eight hours a day in-
 stead of 10 hours as at present, with
 no reduction in wages. Notices to
 this effect will be posted in both fac-
 tories shortly.

It is said that it is the conviction
 of President Moreland, of the Union
 company, that workmen are able to
 do better work by being employed
 eight hours a day instead of ten.

The biscuit kiln hands at Laughlin's
 No. 2 were obliged to loaf today for
 a want of ware. Orders have been
 heavy and the general force of em-
 ployes too light to keep stocked up.
 Men who were expected to resume
 their places since the holidays have
 not all gone on duty, but it is ex-
 pected that by next week there will
 be a sufficient force to alleviate the
 distress. Shafting and machinery,
 which arrived a few days ago for
 the new addition, are now being put
 into position.

Warehouse women's local No. 7606
 held a special meeting Thursday even-
 ing to consider the reduction of girls
 employed in the warehouse of the
 Cartwright pottery. About 10 girls
 were formerly employed where now
 seven are employed. It is announced
 that as these girls are not in the
 local no action can be taken, while
 the company claim they have the priv-
 ilege to draw the girls by contract.
 The girls now make \$1 a day.
 Formerly they got 87 1-2 cents.

W. C. Lynch, salesman for Laugh-
 lin's, who had a large piece of bone
 removed from his left shoulder at
 the Mercy hospital at Pittsburg last
 week, returned home yesterday. His
 room at the hospital was given to
 County School Superintendent Samuel
 Hamilton, of Pittsburg, who had both
 feet cut off by a train a few days ago.
 Mr. Lynch will not lose the use of
 his arm, although at present the in-
 jury is causing much pain.

During a meeting of kilnmen's local
 No. 9 last evening three candidates
 were obligated and applications re-
 ceived from two persons. During the
 meeting propositions that will likely
 be presented at the annual convention
 of the N. B. of O. P., which will be
 held at Trenton, were formally dis-
 cussed. The session was by far one
 of the most interesting held by the
 local for months.

Quite a change will be made in the
 warehouse of the National pottery.
 It has been decided to remodel a por-
 tion of the basement in which will be
 stored "thirds." This will give suf-
 ficient room in other parts of the fac-
 tory for a large addition to the deco-
 rating department, which is needed
 badly.

The printers who have returned to
 work at the potteries controlled by
 the East Liverpool Pottery company,
 have done so under protest. While
 the dispute is on other orders

can be worked upon as usual. It is
 likely the matter will be settled by
 the arbitration board within a few
 days.

W. C. Browne, who has been trav-
 eling through the east in the inter-
 est of the Dresden pottery, has been
 favored with some very large orders
 since he started out. A letter received
 from Mr. Browne by this firm yester-
 day stated that the outlook for a
 large spring trade was encouraging.

At a meeting of Packers' local No.
 25, held last evening in the Knights
 of Columbus hall, a letter was read
 from the packers of the Ford City
 pottery was read. It is understood
 that a difference exists at this plant
 between the packers and the com-
 pany.

Floyd Chetwynd, mold runner for
 James Mount, a jiggerman at the
 East Liverpool pottery, is ill at his
 home and threatened with fever.
 Ormes Jackson, batter-out for the
 same jiggerman, is also ill with jaun-
 dice.

Horace C. Grey, president of the
 Cincinnati Glass & Crockery company,
 arrived in the city yesterday and will
 remain here several days placing or-
 ders. The firm is one of the largest
 of the kind in southern Ohio.

The East Liverpool Pottery com-
 pany will hold their annual meeting
 next Tuesday. Their samples and
 catalogues are now practically ready
 and the majority of their salesmen
 will leave next week.

W. J. Beight who for several years
 was employed in the warehouse of
 the East Palestine pottery, has left
 that firm and taken a similar position
 with the Thomas China pottery at Lis-
 bon.

William Baxter, a kilnman at the
 East Liverpool pottery, has moved his
 family to Calcutta. Several other
 kilnmen employed in the local pot-
 teries are now residing at Calcutta.

Miss Lottie Trenerey, of Uniontown,
 Pa., has taken a position as special
 decorator at the National pottery. Miss
 Trenerey came to this city recently.
 She is residing in the East End.

Representatives of the jobbing
 house of C. G. Dunnom & Co., of Chi-
 cago, were in the city yesterday. Some
 large orders were placed with the
 Union company.

A new toilet shape is being made
 at the Buckeye, the first pieces being
 made yesterday afternoon. The shape
 is very pretty and sure to receive a
 large sale.

John Sant, a clay salesman, who
 has been traveling through the east-
 ern part of the state visiting several
 potteries, returned home yesterday
 evening.

John Hancock, a kilnman at the D.
 E. McNicol pottery, entertained a
 number of friends at his home on
 Second street last evening.

F. W. Fowler, secretary of the Union
 Pottery company, of Pittsburg, who
 was in the city yesterday, returned
 to Allegheny last evening.

W. A. Rhoads, salesman for the K.
 T. & K. pottery, left yesterday morn-
 ing for an extensive western trip.

Thomas Pickall, a kilnman at the
 Buckeye pottery, was unable to work
 yesterday on account of illness.

George Kite, of the Dean, Kite Co.,
 of Cincinnati, is in the city placing
 orders for early shipment.

Jack Clarke, of the Diamond pot-
 tery, spent last evening at Monaca.
 He returned this morning.

Harry Walcott has taken a position
 as kilnman at the Buckeye pottery.

The Dresden Pottery company will
 ship a car of ware to Marysville, Cal.,
 Monday afternoon.

Eastern potteries are said to be
 making jardiniere a great specialty
 this season.

The McNicol pottery shipped a car
 of ware to Chicago yesterday.

 minister of foreign affairs:
 "St. Croix, D. W. I., Jan. 18.—The
 planters, burghers and property-
 holders of this island urgently protest
 against the opinion of American cap-
 italists being considered an adequate
 expression of the views and interests
 of this island, and petition your in-
 fluence to keep St. Croix in the pos-
 session of Denmark on the sure as-
 sumption that Denmark can find the

Once more the cross-county street railway project is being agitated. As usual, it is outsiders who are projecting the lines and who are expected to pay for them. The fate which has overtaken numerous schemes of the same sort ought to teach the home people a lesson. That is, if they are in earnest in desiring to have an electric railway from East Liverpool to the county seat—and nine-tenths of the people of both towns, as well as those along the route desire it—they should demonstrate their interest by taking up the matter and pledging their assistance. Money talks. If Columbiana county capitalists would get together and subscribe a portion of the money that would be required to build such a road, there would be little difficulty in getting outsiders to put up the rest. The investment, we believe, would be a paying one, in a very short time, if not at the start. Home capital invested would insure the placing of local business men upon the board of directors, and they, familiar with the wants of the people, would be in a position to materially assist in securing prudent management. Street railways are being built in many sections of the county connecting far less important towns than East Liverpool and Lisbon, but it will be noted that in almost every instance local capital is a factor in building them. There are very few trolley roads that are not profitable to their owners, and the great majority of them are growing more valuable very rapidly. An opportunity for great possible profit, as well as lasting benefit to a large section of the county, should not be overlooked by our citizens.

Good progress is being made toward the establishment of civil rule in the Philippines, and bills are now pending in congress looking to the more rapid extension of the system. But it must be remembered that, in the nature of things, for a good many years to come, whatever laws may be enacted, soldiers will be needed, to cooperate with the civil authorities in maintaining order in the islands. It is highly probable that ere long native Filipinos, under the command of American officers, can be employed to advantage in this work. Indeed, some experiments of this sort were tried some time ago and were reported to work well. Great Britain, in several of her possessions in India, depends largely upon native soldiers. The sooner the Filipinos can be taught to co-operate in governing themselves the better for them, to say nothing of the lessening of expenses to this government.

A representative of the German navy who recently visited American shipbuilding plants reports to the emperor that he found in this country "a splendid body of workmen earning wages from 30 to 50 per cent higher than those paid in Great Britain and 100 per cent higher than those paid on the continent." What most impressed him in this country was the large use of labor-saving machinery, especially of the pneumatic boring, hammering and riveting machines, which, while familiar in the United States, are almost unknown in Europe. He adds that materials for the construction of steel ships are lower here than in any other country.

Canada is able to count only 5,369, 666 Canadians in her census. Had the enumerators looked on this side of the border they could have swelled

the figures materially. Thousands of the brightest and most ambitious young Canadians, when they start to make a home, come over to Uncle Sam's territory to do so.

The Republican county committee's new rules for the regulation of primary elections are a long step in the right direction. Diligently lived up to, they can scarcely fail to prove beneficial.

Cablegram of Protest From Danish West Indies.

St. Thomas, D. W. I., Jan. 18.—The following cablegram, signed by a large number of persons, has been sent to Dr. J. H. Deuntzer, Danish minister of foreign affairs:

"St. Croix, D. W. I., Jan. 18.—The planters, burghers and property holders of this island urgently protest against the opinion of American capitalists being considered an adequate expression of the views and interests of this island, and petition your influence to keep St. Croix in the possession of Denmark on the sure assumption that Denmark can find the means to make the cultivation of sugar, now in a most critical position, remunerative to the island."

WELLSVILLE

TO BUILD IN THE SPRING

Thomas H. Silver And Others Will Add to Wellsville Business Buildings.

Thomas H. Silver, the banker, has announced that in the early spring he will make some decided improvements to several of his many lots located on different streets in the city. Among the improvements contemplated is the erection of an elegant brick building at Fourth and Main streets. The new structure will be spread over the entire vacant lot and will much improve the looks of the public square. It is stated that the Union Printing company will occupy the first floor. Another marked improvement which is planned is to remove his portion of the Arcade building, fronting on both Main and Front street, and erect in its stead a beautifully designed business block. The first floor is to be arranged conveniently for the Adams Express company and the remaining portion rented to tenants.

Messrs. H. C. Wells and A. M. Lichenberger, on a smaller scale, will keep pace with Mr. Silver. They will also build in the spring. Mr. Lichenberger will locate his improvement on Main street. It will probably be a finely planned business block. Mr. Wells has given the contract for a dwelling house to be erected on his second street lot. The house will be up-to-date in every particular.

GOT A BAD FALL

The Reason Liveryman James Moore Carries His Arm in a Sling.

James Moore, the West End liveryman, is suffering from injuries received by falling from a wagon when transporting the household goods of William Figley to Lisbon.

Mr. Moore was perched high on a bed-lounge, when the wagon gave a sudden lurch, precipitating him to the ground. In his descent his left arm struck against a wheel. Mr. Moore is carrying the arm in a sling and will be incapacitated for work for several days.

Married in Marietta.

Miss Margaret Kane and George Cunningham, both of Belpre, were married on Monday at Marietta by Rev. W. E. Brinkman, says a Parkersburg paper. Miss Kane was one of the most popular members of Belpre society and Mr. Cunningham is a prosperous and popular young man of that place. Their marriage was a surprise to their friends, but they will receive their congratulations nevertheless. Mrs. Cunningham is a sister of Mrs. Jenken Hamilton, of the West End, and is now visiting her.

An Unfinished Fight.

Gus Weaver and Tom Fogo, local characters, were the participants in an amusing fight last evening at the entrance of a Third street saloon. Each took several "falls" out of the other when they became weary and decided to fight it out later.

SUIT OVER A NOTE

The Alleged Maker Has No Recollections of Giving It And Will Fight.

Messrs. Dales and Jones Jackson, of Fairview, appeared before Squire Johnston yesterday and filed a suit against Thomas Gamble for \$26.93, alleged to be due them on a promissory note given them by Gamble January 3, 1892. Mr. Gamble has employed an attorney and will fight the case. He states that he has no recollection of ever giving such a note and is confident that he can prove his assertion, as the note only bears his mark as a signature and the names of no witnesses appear under the mark.

The case will be argued before Squire Johnston next Saturday afternoon at 1 o'clock.

New Street Car Schedule.

A new schedule for the running of street cars on the East Liverpool & Rock Springs railway has been arranged and will go into effect Monday morning. According to the schedule the first car will leave the barn in Chester at 5:30 a. m. and the last car will leave the Diamond at 12, midnight. Another car will be operated, which will give employment to another crew.

Sprained His Ankle.

William MacDonald, an employee of the American Tin Plate company, is off duty as a result of a sprained ankle which he received by carelessly jumping from a scaffold in the mill. He will be incapacitated from work for some time.

CHESTER NOTES.

Mr. and Mrs. William Powell, of Graysville, are visiting Otto Powell and family.

Harvey Thompson, a motorman on the street car line, is off duty owing to a severe attack of rheumatism.

Walter Walley, of New Cumberland, visited C. T. McCutcheon and family yesterday.

FAKING PUGS ARRESTED.

Maher and Sharkey Released on Bond and Then Try to "Film" the Spectators.

Philadelphia, Jan. 18.—Tom Sharkey and Peter Maher, the pugilists, and James H. McFarland, an official of the Industrial Athletic club, under the auspices of which organization the Sharkey-Maher fight took place last night, were arrested last afternoon on warrants charging them with conspiracy to commit a breach of the peace. They were held in \$5,000 to keep the peace, and appear in court this morning. Bail was furnished.

The warrants were sworn out by J. D. Barnitz, a citizen who, it is understood, represented the Law and Order society of this city. Witnesses were examined.

The men promised that there would be no knock-out, no violence, and no infraction of the State laws regarding prize fights, and that they would engage only in a sparring contest. This promise was accepted. If they lived up to their promise they were to be discharged from their appearance in court this morning.

Fighters Tried to Fake.

The men met for the contest last night. When the bout had progressed for two and a half rounds amid incessant cat calls, hisses and yells of "take them off" and "fake," Referee Roca stepped to the side of the ring and said that he had been engaged to referee a contest. "This is no contest," he concluded, and the men took their corners.

Both Sharkey and the president of the club attempted to address the angry crowd, but neither was permitted to speak. The spectators were worked up to such a pitch that they broke chairs and benches in their desire to "get even." It was little satisfaction for the 4,000 persons who had paid \$2, \$3 and \$5 for seats.

Ahead on Prayers.

A bishop traveling in the depth of winter came to a house of a presiding elder to spend the night. The weather was bitterly cold, and the bedroom into which the bishop was shown had a thick coating of ice on the windows. The elder waited to see the bishop safely between the feather beds. But when the bishop, half frozen, jumped into bed without stopping to say his prayers the elder remonstrated with him.

"You have forgotten to say your prayers," he said.

"No," answered the bishop. "I always keep 'prayed up' in preparation for nights that are as cold as this."

Natural as Life.

Two ladies who had not seen each other for years recently met in the street. They recognized each other after a time, and their recognition was cordial.

"So delighted to see you again. Why, you are scarcely altered."

"So glad, and how little changed you are! Why, how long is it since we met?"

"About ten years."

"And why have you never been to see me?"

"My dear, just look at the weather we have had."

HELP THE BOER PRISONERS!

Rev. Dr. Everett Hale Asks Contributions—Sad Conditions in Bermudas.

Boston, Jan. 18.—Rev. Edward Everett Hale, D.D., president of the Lend-a-Hand Society, which for months has been collecting and shipping clothing, food and other things to the Boer prisoners held by the British in the Bermuda Islands, recently sent his assistant, Rev. W. S. Key, to visit the prison camps and report on the conditions. He has returned. There are now about 5,000 men and boys in the prison laagers. All the prisoners complained of having no clothing excepting what they wore when captured. Some of them had not a change of underwear for sixteen months.

During Rev. Key's visit clothing was distributed, but hats, caps, socks, towels, handkerchiefs, underclothing, suspenders and soap, needles, thread, buttons and knives are badly needed. The short allowance of vegetables was complained of.

Rev. Dr. Hale asks for contributions of such food as oat meal, corn meal, condensed milk, all kinds of cereals, tea, coffee, peas, beans, rice, sago, evaporated apples, canned corn, desiccated vegetables, and tobacco for the old men. Money is also needed.

The Lend-a-Hand Society, Boston, receives and ships all contributions.

ADVISED BOERS TO ACT.

Dutch Premier Also Sounded England For Them.

London, Jan. 18.—Reuter's Telegram company has received the following dispatch from Amsterdam: "According to trustworthy information Dr. Kuyper, the Dutch premier, recently intimated to the Boer delegates the desirability, in view of Lord Rosebery's speech at Chesterfield, of their giving some intimation to the British government of the basis upon which they would entertain peace negotiations. Dr. Kuyper pointed out the improbability of any of the government powers intervening in South Africa in the near future, and suggested that he be allowed informally to sound his friends in London in the hope of a semi-official response. The Dutch premier accordingly met Abraham Fischer, the leader of the Boer delegates, and others at Brussels, where a long conference was held, after which Dr. Kuyper proceeded to London. The result of his visit, if any has been attained, is not yet known.

"It is understood that Dr. Kuyper distinctly assured the Boers that Holland, under no circumstances, would act as an intermediary."

Awful Experience of An Entombed Miner

Buried alive for four days in a smoking mine and rescued when nature was almost exhausted and about to succumb was what happened to Fritz Molter, a miner of Huntington, W. Va., who was caught in the recent explosion in the Baby mine.

Molter's own story of his imprisonment is an appalling one. Together with two other men he was on the day of the explosion at work in room No.

ON THE FLOOR LAY FRITZ.

20 of the Baby mine, when suddenly the air seemed strangely heavy and the men's lights grew dim.

He had scarce time to give the alarm and dash down the broad way toward what he hoped to be safety when a terrific explosion shook the mountain. Dazed, stunned and almost senseless, he staggered along he knew not whither.

For what he thinks must have been a period of two days he sat on the floor conscious, but every moment awaiting in fear another explosion which might be his death. The third day was a period of awful suffering.

Meanwhile hundreds of watchers outside the mine were in an agony of fear. Relay after relay of men had been laboring at the work of relief until worn out.

Not a word was spoken. The men toiled like demons. Shovelful after shovelful of dirt whizzed through the air to clear the way for the picks that, wielded by strong arms, seemed to swing a song of rejoicing. At last a small opening was made. Then the thin wall was cut through, and into the room dashed two or three of the foremost workers.

On the floor lay young Fritz Molter breathing, but that was all. In another hour the man would have been dead.

When the Rod Was Not Spared.

The change of thought and conditions of mankind is no better illustrated than by the history of the rod. In an article on the morals of the child by Dr. Grace Peckham Murray there is mention made of a Suabian schoolmaster who during his fifty-one years of superintendence of a large school had given 911,500 canings, 121,000 floggings, 209,000 custodes, 136,000 tips with the ruler, 10,200 boxes on the ear and 22,700 tasks by the heart.—Delineator.

No Joking Matter.

"Joaksmith, it appears, is married and has gone to housekeeping."

"Not at all. What made you think so?"

"He's been writing so many jokes about servant girls lately he must have had some experience with them."

"Nonsense! If he'd had such experience, he wouldn't joke about it."

When the Rod Was Not Spared.
The change of thought and conditions of mankind is no better illustrated than by the history of the rod. In an article on the morals of the child by Dr. Grace Peckham Murray there is mention made of a Suabian schoolmaster who during his fifty-one years of superintendence of a large school had given 911,500 canings, 121,000 floggings, 200,000 custodes, 136,000 tips with the ruler, 10,200 boxes on the ear and 22,700 tasks by the heart.—Delineator.

No Joking Matter.

"Joaksmith, it appears, is married and has gone to housekeeping."

"Not at all. What made you think so?"

"He's been writing so many jokes about servant girls lately he must have had some experience with them."

"Nonsense! If he'd had such experience, he wouldn't joke about it."

BUSINESS SOUND.

Distribution and Prompt Payments, Except in a Few Southern Cities.

GAINS IN RAILWAY EARNINGS.

Nothing Disturbed Bright Outlook in Iron and Steel Industry—Wool Situation—Conditions in Wheat, Corn and Provisions—The Failures.

New York, Jan. 18.—R. G. Dun & Co.'s weekly review of trade will say: Readjustment of prices continued during the second week of January, and the general average reached a much lower point than prevailed when the year opened. Manufactured products were scarcely disturbed, but both staples and securities suffered. Business conditions are sound, liberal distribution and prompt payments being reported, except at a few southern cities. Cotton still fails to command a price proportioned to the estimated crop, and as a consequence the return to growers is insufficient to sustain business at the rate established by the previous year's most profitable yield. Transporting interests are less behind with deliveries, and railway earnings for the first week of January show gains of 7.4 per cent over last year's phenomenal figures, and 14.7 per cent over 1900.

Bright Outlook Not Disturbed.

Nothing has transpired to disturb the bright outlook in the iron and steel industry. Deliveries of fuel are less delayed and furnaces operate more fully, while mills receive material with a fair degree of promptness. Quotations are maintained firmly, especially for pig iron, which is in great demand. Large contracts have been placed for Bessemer at \$16.50 on Pittsburgh deliveries in June. Spot sales in small quantities are much higher. Structural material is taken almost eagerly and more for bridge contracts are reported. Billets cannot be had in sufficient bulk from domestic producers, so that imports from Germany are sold at Youngstown for \$27.50. Production of pig iron on January 1, according to Iron Age, was 298,400 tons against 324,761 at the high point on December 1.

During the last two weeks conditions have improved so rapidly that the present rate of output is probably at about the top point. Stocks at the furnaces showed a further decrease to 216,137 tons on January 1. Sales of copper are made at 11 cents, which makes a somewhat striking comparison with the 50 per cent higher figure of a few weeks ago.

Advanced Prices of Footwear.

Footwear producers have at last made a general advance of from 2 1/2 to 5 cents. Wholesalers have not altered lists. Hides are weaker, which is natural at this season, when the quality deteriorates. Stocks of cotton goods are not burdensome, and demands generally expand with the advancing season, especially for fine grades. Heavy brown goods move slowly, both on home and domestic orders. Woolen goods opened lower than expected, and purchases were retarded rather than stimulated by the declines. Changes were few and small, yet there had been such confidence in a higher level that the trade hesitated. Woolen and worsted yarns tend upwards.

Grain reacted sharply from the high point, and a large western operator was caught with more than he could carry. Forced liquidation of this long account facilitated the work of manipulators for a decline. Another unsatisfactory feature was the recent falling off in foreign demand, official figures for December showing smaller exports of wheat than for any

PLENTY OF PROOF

From People You Know—From East Liverpool Citizens.

The greatest skeptic can hardly fail to be convinced in the face of evidence like this. It is impossible to produce better proof of merit than the testimony of residents of East Liverpool, of people who can be seen at any time. Read the following case of it:

Mr. P. J. Green, veterinary surgeon, says: "When attending a sick horse belonging to Mr. G. H. Gardiner, of 168 Jackson street, he remarked to me that the horse seemed to be in pain. I replied that I was the sicker of the two, as I could at that time scarcely straighten up with my back from lameness, weakness and severe pains. He asked me what my symptoms were and I explained to him that I had suffered for a number of years from my kidneys, that I had attacks at times when nothing helped me, and it was agony to get around, but that I could not endure idleness. The secretions from the kidneys were very high colored and acidulous; that I had spells of dizziness when I could see black specks floating before my eyes and felt generally broken up. He looked up and said he had the very thing I needed to cure me in his house—Doan's Kidney Pills. He went into the house and brought me eight pills. I took them with me and I used them two at a dose. The effect was astonishing. I felt it almost at once, and went to the W. & W. pharmacy and bought a box and took them. The encouragement held out to me by the first eight pills was not mythical, as by their continued use the improvement continued and I consider no expression of praise too strong for Doan's Kidney Pills; in short, they are ne plus ultra."

month of the calendar year, although for six months of the crop year there still appears a gain of about 50,000,000 bushels over the corresponding months of 1900 or 1899. This week's exports were 4,348,431 bushels against 3,408,725 a year ago. Corn declined sharply, but still remains about 20 cents a bushel above the price of last year. Exports in December were only about 6 per cent of the outgo in the same month of 1900, while for the week Atlantic ports sent out 128,674 bushels against 4,695,320 bushels a year ago. Provisions weakened slightly in sympathy with grain, yet the higher level of prices in December established a new monthly record in value of exports.

Activity at Coffee Exchange.

Great activity occurred at the coffee exchange, where speculators for a decline were successfully aided by enormous receipts at Brazilian ports and American stocks 150 per cent larger than were held a year ago. Failures for the week numbered 334 in the United States against 325 last year, and 40 in Canada against 43 last year.

FOR MEMORIAL OF M'KINLEY.

Request of Governor Nash Complied With, in Nearly All States and Territories.

Cleveland, O., Jan. 18.—The request by Governor George K. Nash, of Ohio, to the governors of all the States and Territories to join with him in asking the people to properly observe the 59th anniversary of the birth of William McKinley, has met with immediate and hearty response. Nearly every governor has either issued a proclamation or semi-officially requested that there shall be memorial services on the Sunday preceding, January 26th, in all the churches; that contributions be there received, and that all people testify by their voluntary offerings their love and devotion for the dead President. In many States, notably Kansas, public schools will hold special exercises, and give to the fund. In any community where there is no local auxiliary of the McKinley National Memorial association, contributions by business, fraternal or labor organizations, schools or churches, may be sent to the treasurer, Myron T. Herick, Cleveland, O. The funds will be applied to the erection of a fitting memorial tomb to William McKinley, over his last resting place at Canton, O. Judge William R. Day, ex-Secretary of State, is president of the association.

FRYE'S SHIP SUBSIDY BILL.

Senate Committee on Commerce Authorized Favorable Report.

Washington, Jan. 18.—The Senate committee on commerce yesterday authorized a favorable report on Senator Frye's ship subsidy bill. The report will be made by Senator Frye.

The Democratic members of the committee voted against reporting the bill. They also voted solidly for a motion offered by Senator Mallory to strike out the general subsidy provision of the bill. The committee made several amendments to the bill. The most important were: Allowing mail-carrying vessels under the bill to be either iron or steel instead of steel as originally provided, and another reducing to one thousand gross registered tons the vessels receiving a bounty under the bill.

Type Founders Increase Capital.

Trenton, N. J., Jan. 18.—The American Type Founders' company filed papers increasing its capital from \$1,000,000 to \$6,000,000. The company's authorized capital was at one time \$9,000,000, but this was subsequently decreased to \$1,000,000.

FOLLIES OF FASHION

SARTORIAL VAGARIES OF THE CENTURIES THAT ARE GONE.

Grotesque Styles That Reigned in the Time of Chaucer—Raiment That Rivalled the Rainbow and Men Who Starched Their Beards.

It is a little gratifying to reflect that, however the man of today may compare with his ancestors of bygone centuries in physique and morals, his dress is much more moderate and inexpensive, even if it is less picturesque, than theirs.

It is true that here and there one may find some foolish young man whose taste in dress is as extravagant as that of any "buck" of the days of the Georges. There is, for instance, a son of a well known peer who has the reputation of never wearing a suit twice. He has a wardrobe of waistcoats of all the colors of the rainbow, ranging from a light blue spangled with silver stars to a deep green satin with buttons of eighteen carat gold, each of which is adorned with the painted face of a beautiful woman.

Another wealthy aristocrat is credited with having as many suits and uniforms as there are days in the year and with spending on his tailor's bill a sum which would pay the yearly salary of a minor cabinet minister.

But such men are modestly arrayed compared with the dandies of many a past century. The earl of Northumberland who lived in the latter part of the fourteenth century boasted no fewer than sixty suits of cloth of gold alone, and the bishop of Ely of that time had a change of raiment for every day of the year.

Much later, in Queen Mary's time, the wardrobe of a bishop might have been the envy of Solomon for the variety and costliness of its contents, and even a simple village priest, according to Fuller, wore "a vestment of crimson satin, a vestment of crimson velvet, a stoe and fauon set with pearls, gowns faced with taffetas, etc."

In the days of Chaucer fashionable men wore clothes as many colored as Joseph's coat, so that "while one leg would be a blaze of crimson the other would be tricked out in green or blue or yellow, without any regard to harmony or contrast."

Even as late as the middle of the eighteenth century a dandy would deck himself in "a vivid green coat, a waistcoat of scarlet, yellow breeches and blue stockings," and the gentleman of a few years later wore, among similar sartorial vagaries, "a coat of light green, with sleeves too small for the arms and buttons too big for the sleeves; a pair of Manchester fine stuff breeches, without money in their pockets; clouded silk stockings, a club of hair behind larger than the head that carries it, a hat of the size of a sixpence on a block not worth a farthing."

At one fashionable epoch our ancestors, to quote the words of a quaint chronicler, "would wear clothes so tight to ye skin that it might well be conceived they wore no clothes at all," and at another they would wear them "so voluminous that a single suite might well have afforded rayment for a whole familie, and so stuffed out with feathers that, of a verity, their wearers resembled nothing so much as walking sacks."

At another period it was the grotesque fashion to combine on one person the dress of all the countries of Europe—the hat would be Spanish, the coat French, the trousers Turkish, and so on—so that the wearer was a "walking epitome of the dress of a continent."

At one time, shoes would be worn with square toes of such width that a royal proclamation was issued limiting the width to six inches, and these shoes were succeeded by others which came to the finest of points at the toes.

In Henry II.'s time shoes with points two feet long were worn by the fashionables, and in the reign of Henry IV. these points had grown to such an inordinate length that in order to be able to walk at all it was necessary to attach the tips to the knees by chains, which were of gold or silver, while the tops of the shoes were carved with all kinds of fantastic designs.

In the early part of the eighteenth century it was a common thing for a man of fashion to spend several hours a day with his raiment, among the quaint operations being "the starching of the beard and the proper perfuming of garments, the painting of the face and anointing with oils, tinctures, teneccences and pomatums." It is even said that some of the dandies of the time bathed in wine and milk "for the preservation of their complexions and the rejuvenation of their energies."—London Tit-Bits.

Be Explained.

At a school one day a teacher, having asked most of his pupils the difference between an island and a peninsula without receiving a satisfactory answer, came to the last boy.

"I can explain it, sir," said the bright youth. "First get two glasses. Fill one with water and the other with milk. Then catch a fly and place it in the glass of water. That fly is an island, because it is entirely surrounded by water. But now place the fly in the glass of milk, and it will be a peninsula, because it is nearly surrounded by water."

The boy went to the top of the class.

KIDNEY DISEASE AVERTED. THEY are HERE

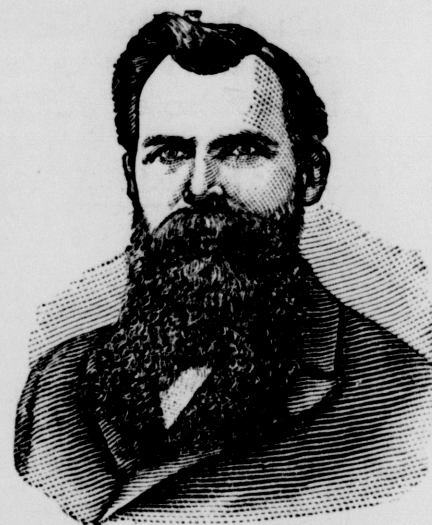

—IN—

East Liverpool, Ohio,

The Most Eminent Specialist in America are in our city and will remain until

Wednesday Noon, January 22, Ten Days Only,

and will receive patients while here at the parlors of the Thompson House.

Dr. Snell and Staff

—OF THE—

New York and Ohio Electro-Medical Institute are visiting a few of the principal cities of our country. This being their advertising trip, and to introduce their new system of curing disease, they will give consultation, examination, advice and all medicine necessary to complete a cure FREE. All patients taking advantage of this offer will be expected to state to their friends the results obtained.

Don't fail to call on these renowned specialists. All diseases of men and women treated. No matter what your disease may be or of how long standing, there is no experimenting or guesswork; you will be told whether you can be cured or not.

They have an entirely new and original method of treating all kinds of deafness which has restored the hearing to hundreds after they had been pronounced incurable. Catarrh in all its varied forms cured so it will never return, by breaking up the cold-catching tendency.

If you have weak lungs or consumption, and have been told you are beyond help, don't fail to call on them and have a thorough examination, as a visit will cost you nothing and may save your life.

Their new discovery of absorbing medicine by electricity, in paralysis, loss of power, rheumatism and all diseases of the nervous system is a godsend to suffering humanity. Medical men stand appalled at the marvelous cures that are being effected wherever this system has been introduced. Thousands who have given up all hope of ever being cured have now an opportunity of a lifetime to consult, without charge, Specialists of a national reputation. Remember, their knowledge of medicine, combined with electricity, gives them control of disease that others do not possess. If you are hard of hearing, are lame, or cannot walk, this new system will cure you quickly.

If you suspect kidney trouble, bring a two-ounce vial of your urine for a chemical and microscopic analysis.

If you are improving under your family physician do not come and take up your valuable time. Idlers and curiosity-seekers will please stay away.

Cancers, Tumors, Ulcers, all blood, skin and scalp diseases cured by an entirely new method. Piles and Varicocele cured in from 5 to 30 days without the knife.

Remember, not one penny will be charged for all the medicine required to complete a CURE, to all those taking treatment during this trip.

Some Rules for People of Sedentary Habits.

How to Detect This Approaching Trouble and Nip It in the Bud.

Sedentary habits cause kidney troubles. People who are obliged to sit all day long, stenographers, telephone and telegraph operators, seamstresses, milliners, shoe makers, tailors, book keepers, clerks who stand over a counter, engineers, firemen, conductors, brakemen, and others on steam and electric railroads, are all more or less affected with disease in the kidneys. Long hours in a sitting posture cramps the kidneys, bowels and other organs in the pelvic regions. You will find that nearly everyone of these people has constipation, and a great many more of them have kidney troubles and don't know it. Often incipient Bright's disease will fasten itself upon a person and the only indication of anything wrong that the layman can discern is a slight aching or tired feeling across the small of the back. This goes unheeded because it is itself apparently of no great consequence. Let the knowing physician examine the water, when these symptoms are manifest, and he'll find a clouded, discolored, albuminous fluid that tells as plainly as a picture that inside of these delicate and important organs there exists a condition of disease such as to need quick and powerful treatment in order to preserve them from decay and save the life of the owner. Always be on your guard for the slightest pain or soreness across the back. Don't let it go unheeded for at that very instant your kidneys may be in an awful condition. When healthy they perform an important function, that of filtering and purifying the liquids that pass into your system. They do it so carefully too that not the most infinitesimal speck of foreign or disease-breeding matter can get into the vitals of the body. While they are healthy, they do more toward keeping you well than any other organ of the whole anatomy. When they are impoverished and weak, unable to stand as the barrier against disease, it's like throwing down the protecting walls and picket lines of a great city and letting the enemy, uninterrupted, walk in. Think of these precious organs becoming enfeebled through want of nourishment. Think of them instead of being plump, vigorous, healthy, of being thin, lifeless, almost bloodless, eaten full of holes and secretion, a pus that would make you hold your nose, could you see it. Think of them in their struggling attempt to obey nature, plunging this filthy and disgusting mass into your lungs, heart and everywhere over the body, on account of their inability to eject it through the proper channels and out of the system.

Does this appear to you as being healthful? Yet you, though not suspecting it, may be in this very position. If you have a running sore on your arm, you would bathe it carefully with warm water to cleanse it, then tenderly cover it with some healing lotion. This much to protect it from the poisons in the air, and to assist your internal medicines to act more thoroughly. Your kidneys need washing as much as your arm. You need to flush out that pus and secretion and assist nature to restore healthy action. You need something known to go direct to your kidneys through the blood and that has a healthy effect. "Blood

Wine" will do this and so marked is its action on the kidneys that you can actually feel it working on them within a few minutes after taking a dose.

It gives them just the kind of bath they need and it heals up the sore. It takes away the smarting, burning, painful, dragged-down, all-gone sensations, as if by magic. It takes sediments of all kinds out of the little nooks and corners where they lodge and cause brick dust, gravel, stone in bladder, inflammation, etc. If you have any of these troubles, or even if you have any of the slightest symptoms of kidney disease, you ought to protect yourself. It is easier to prevent than to cure any disease. A bottle of "Blood Wine," costing fifty cents, will often save off a serious trouble, and spare the patient's life, to say nothing of saving great expense and long suffering.

Read this expression of gratitude from a Worcester, Mass., woman, who has had an excellent chance to make a careful investigation of "Blood Wine." Mrs. Ann P. Stocking says:

MRS. ANN P. STOCKING.

"I live right here in the city where 'Blood Wine' is made. I have seen with my own eyes the cures it has effected all about me, and I have been cured myself of a very stubborn case of kidney disease. I suffered for several years, had all the symptoms that ever accompanied such a trouble, and tried about every remedy recommended. 'Blood Wine' was the last. I took it only after being convinced that it was a truly wondrous medicine, and it cured me. I went to the Louis Daudelin Co., and volunteered this statement, because I knew them to be honest, upright people and deserving of success. 'Blood Wine' will cure any form of kidney disease and do it quickly and thoroughly. Anyone so affected should try this great medicine just as soon as they can get their hands on a bottle."

Go to your druggist and look into it carefully; read the literature and ascertain for yourself just what it will do. It contains no wine or opiates.

"Blood Wine" costs fifty cents a bottle, but you can sample it free of charge at Will Reed's and Hodson's drug stores.

Biliousness

"I have used your valuable CASCARETS and find them perfect. Couldn't do without them. I have used them for some time for indigestion and biliousness and am now completely cured. Recommend them to every one. Once tried, you will never be without them in the family." EDW. A. MARX, Albany, N. Y.

PRINCE DELIGHTED.
Henry Pleased over Prospect
of Paying Visit to the
United States.

THE PRESIDENT ALSO GLAD.
Expressed Most
at the Decision
German Em-
peror—Entered
Reception and
ing Details.

Washington, Jan. 18.—The firm
face Downey, of the firm
building Empire
called at the White House yesterday,
and after discussing with President
Roosevelt the details of the approach-
ing launch, went to the State depart-
ment and talked over details of the
program with Assistant Secretary
Hill, Admiral Evans and Admiral
Crowninshield. It was decided that
the launch shall occur at 10:30 a. m.,
February 25.

The President Highly Pleased.
The President expressed the most
lively satisfaction at the decision of
the German Emperor to send his
brother, Prince Henry, as his per-
sonal representative at the ceremony,
and has entered with great interest
into the details of the arrangements
for the reception of the Prince and
for the launch.

Two plans are under consideration
for the transportation of the Presi-
dential party to Shooters Island,

BARON THEODOR VON HOLLEBEN.

where the yacht is building. One is
to have the President meet Prince
Henry at the battery in New York,
where the party will board a United
States government vessel and proceed
down the bay to the island, nine miles
distant; another is to have the Presi-
dent's car go over the Baltimore and
Ohio railroad as far as Newark bay,
where it will be switched on to the
long trestle and the party embarked
on one of the ship building firm's
boats. The shipyard is only three-
quarters of a mile distant from the
trestle.

Rear Admiral Evans has been desig-
nated as a special attendant upon
the Prince beside being in charge of
the naval demonstration. He has
arranged to have the escorting
squadron under his command meet
the North German Lloyd steamer
Kronprinz at Tompkinsville, at which
point the Prince will be transferred
to the Hohenzollern, and the naval
procession steam up the bay.

Count Seckendorff Delighted.

Count Von Seckendorff, marshal of
the court, who will accompany Prince
Henry to America, writes to an
American friend in New York, that
the Prince and the members of his
suite are delighted at the idea of
their trip to America, and talks of
nothing else, cables the Berlin repre-
sentative of the Journal and Ameri-
can. Seckendorff says he will be de-
lighted to renew the acquaintance
he made on his visits to San Fran-
cisco and other cities in 1869 and
1872, of which he has the pleasant-
est recollections.

The foreign office declines to give
the names of the Prince's suite. The
German press is deeply interested in
the trip.

PASSENGERS AND CREW SAVED.

Brought Ashore From Stranded Ves-
sel By Breeches Buoy Apparatus.
Waves Dashed Over Ship.

Ludington, Mich., Jan. 18.—The
Pere Marquette Railway company's
steamer No. 3 struck the bar at the
mouth of the harbor early yesterday
while attempting to enter in a high
southwest gale, and was scuttled in
nine feet of water. The nine passen-
gers and the crew of 35 were taken
off the wrecked craft by the life-
saving crew with their breeches buoy
apparatus. The No. 3 lies 150 feet
from the end of the pier and 200
feet from the shore with the great
waves dashing over her decks. She
is really a mass of ice.

The accident occurred before day-
light. Passengers and crew were
rudely awakened by the succession
of shocks as the steamer pounded
on the bar. Signals of distress were
immediately blown and the life-
saving crew quickly responded. Run-
ning their mortar out on the pier the
life savers shot a line to the wreck.
A heavier rope was then hauled
aboard and when day broke there
was a line 200 feet long stretched
from the pier to the boat and the
breeches buoy apparatus was ready
for use. Over this line nine passen-
gers, four of whom were women, and
the crew of 30 were safely taken
in the breeches buoy in two hours.
It was a thrilling rescue. As the peo-
ple were drawn along the rope the
waves broke over them, and all were
drenched by the icy water when
they reached the pier.
The boat was loaded with 25,000
bushels of barley and 200 tons of
merchandise. The stranding occurred

THIS TRAMP DARE NOT CROSS THE FENCE FOR FEAR OF THE
DOG. CAN YOU FIND THE ANIMAL?

at almost exactly the same spot
where the car ferry Muskegon struck
and wrecked three weeks ago. The
Pere Marquette officials have hopes of
saving No. 3 and her cargo, but there
is great danger that the boat will
go to pieces if the high sea con-
tinues.

Captain Frank Dority, who was the
last man to leave the vessel in the
bay, says that the rudder stock was
twisted by the large sea that was
rolling, and the steamer gear refused
to work. The steamer then lost her
head and rolled in the trough of the
sea until struck. Engineer Williams
made every effort to work the vessel
off with her own steam and stayed in
the engine room until he was driven
out by the water.

RECEIVER DISCHARGED.

Agreement Reached With Strong &
Co. and Other Creditors.

Cleveland, Jan. 18.—Chairman New-
comb, of the bankers' committee, ap-
pointed to take charge of the Everett-
Moore syndicate securities, stated
yesterday that an amicable agree-
ment had been reached with Strand
& Co., and other creditors of the
Detroit and Cleveland line.

The receiver appointed for the road
at the instigation of Strand & Co.
will be discharged at once, and Re-
ceiver Edwards, who was appointed
by the United States court at the
suggestion of the bankers' commit-
tee, will assume charge of the prop-
erty. It is understood that the road
will be placed in full operation at
the earliest possible time.

The board of directors of the Fed-
eral Telephone company, with the
approval of the bankers' committee,
has appointed J. W. Judd, of this
city, as treasurer of the Federal and
its constituent companies. Mr. Judd's
headquarters will be in this city.

Referring to a report that the Se-
curities company, the financing
concern which was organized largely
for the purpose of floating the bonds
and securities of the Everett-Moore
syndicate, would shortly go into li-
quidation, Chairman Newcomb said
yesterday: "It is true that the mat-
ter has been under consideration, but
as yet no official action has been
taken. Hence the announcement
bearing on the subject is premature."
The Securities company is capital-
ized at \$1,000,000.

MINERS CENSURE MEN WHO
MADE FALSE CHARGES.

Columbus, O., Jan. 18.—The pro-
ceedings of the Ohio division of
United Mine Workers of America
yesterday was devoted largely to the
adoption of a resolution censuring
the men who had made false charges
of embezzlement against the officers.
That matter was thoroughly investi-
gated by a special committee and
found to be untrue. Circulars of the
report were handled without gloves,
and the resolution provides a penalty
for circulation of untrue reports
against officers hereafter. The re-
mainder of the session was devoted
to the adoption of resolutions on gen-
eral subjects and unimportant con-
stitutional amendments.

Deafness Cannot Be Cured

by local applications as they cannot reach
the diseased portion of the ear. There is
only one way to cure deafness, and that is
by constitutional remedies. Deafness is
caused by an inflamed condition of the mu-
cous lining of the Eustachian tube. When
this tube is inflamed, you have a rumbling
sound or imperfect hearing, and when it is
entirely closed, Deafness is the result, and
unless the inflammation can be taken out
and this tube restored to its normal con-
dition, hearing will be destroyed forever;
nine cases out of ten are caused by catarrh,
which is nothing but an inflamed condition
of the mucous surface. The only way to
cure Deafness (caused by catarrh) that
cannot be cured by Hall's Catarrh Cure.

Does It Pay to Buy Cheap?

A cheap remedy for coughs and
colds is all right, but you want some-
thing that will relieve and cure the
most severe and dangerous results of
throat and lung troubles. What shall
you do? Go to a warmer and more
regular climate? Yes, if possible. If
not possible for you, then in either
case take the only remedy that has
been introduced in all civilized coun-
tries with success in severe throat and
lung troubles, "Boschee's German
Syrup." It not only heals and stimu-
lates the tissues to destroy the germ
disease, but allays inflammation, caus-
es easy expectoration, gives a good
night's rest and cures the patient. Try
one bottle. Recommended many years
by all druggists in the world. You

NEELY WAS ON THE STAND.

Testified as to Surcharged Stamps
Denied He Gave \$4,000 to
Straighten Accounts.

Havana, Jan. 18.—The cross-exami-
nation of Estes G. Rathbone, ex-di-
rector general of posts of Cuba, at yester-
day's session of the court which
is trying the charges growing out of
the Cuban postoffice fraud, brought
out no new facts. Counsel for W. H.
Reeves, ex-deputy auditor for Cuba,
who is also on trial, endeavored to
put the responsibility on Rathbone
for the neglect on the part of Cuban
postmasters to render monthly
statements. Rathbone insisted that
it was Reeves' duty to report irregu-
larities of this kind.

C. F. W. Neely was called and ex-
amined by the fiscal. He said in
part that when the stamps were
burned a certain amount was re-
served for collectors, but that he did
not know how many, and that after
the sales to collectors fell off he gave
the surcharged stamps to Senor
Moya, a Cuban stamp clerk in the
Havana postoffice, instructing Moya
to sell them. He asserted he took
the money resulting from these sales
and put it in the vault. Neely made
no record of these stamps, nor did
they.

Neely denied having any interest in
the Cowan Printing company, of
Muncie, Ind., and that he had not
received \$3,000 as commission from
the Lock Box company that put in
the lock boxes in the Havana post-
office. He explained that this com-
pany was the lowest bidder for that
work.

Neely was confronted with Reeves,
who reiterated his statement that
Neely gave him \$4,600 before leav-
ing to make the books tally. Neely
answered that this was not so, and
said that he was with an employee
of the postoffice at the hour named
by Reeves in his statement. At the
request of Neely's counsel this em-
ployee will be summoned to testify.

AUNT OF DUCHESS CUED.

Property of Miss Evans Attached by
a Paris Banker.

Cincinnati, Jan. 18.—A suit in at-
tachment was filed by A. A. Taquin,
a Parisian banker, against Miss Ev-
ans, of this city, an aunt of the
Duchess of Manchester, for 2,800
francs. The suit is on a draft
drawn on herself, March 4, 1898, and
not paid.

The real estate of Miss Evans is
attached. It is said the money ob-
tained on the draft was used for ex-
penses connected with the wedding
of Miss Zimmerman and the Duke
of Manchester. Miss Evans, at the
time was in Paris with her niece.

SOME SHOW OF STRENGTH.

Evident in Stock Market Friday.
Increased Activity—Some
of the Features.

New York, Jan. 18.—There was
increased activity noted in the
stock market yesterday and a show-
ing of strength, but the dealings did
not rise much over half a million shares
and were largely congested in the
few stocks which were favorites in
speculation. Professional manipula-
tion had not a little to do with the
advance in prices at some points, and
the movement was clearly directed
against the short interest which had
been accumulating during the down-
ward course of prices this week. The
recovery from a recent illness of a
leading operator, who is commonly
credited with the leadership of the
protective forces of the market on
the bull side, was believed to explain
an important part of yesterday's
transactions. The factors which ac-
counted for the rise were partly in
the shape of vague intimations and
general assertions, rather than of ex-
plicit information. Thus statements
were circulated as to the phenomenal
earnings of the anthracite carriers,
which were asserted to reach 13 and
20 per cent for the leading high-
priced stocks. There was no diffi-
culty found in marking up these
stocks, and there was a very heavy
demand at the same time for the
lower-priced stocks in the group. The
movement was extended in some mea-
sure by sympathy to some of the
soft coalers. There was continued
strength in the southwestern rail-
roads, as a group at advances of 1
to 3 points. This might be account-
ed for by reports of much needed
rains in Texas.

Industrials More Prominent.

The industrials as a group came
forward into rather greater promi-
nence than of late. Such conspicu-
ous stocks as Sugar, Amalgamated
Copper, General Electric and the local
tractions, showed gains of 1 to 2
points. American Tobacco gained an-
other 35 points yesterday. Very glow-
ing accounts were put out of the
rate of expansion of the tobacco busi-
ness. American Tobacco preferred,
gained 6, and the Consolidated To-
bacco company's bonds were strong
and active.

Late in the day St. Paul was bid
up quickly nearly 2 points, and other
grangers and Pacific hardened in
sympathy. This late movement was
the effective factor in keeping the
closing firm, as a wavering tendency
had developed before St. Paul's rise.
The bulls had in their favor the
prospect of a strong bank return to-
day.

The railroad bond market was ac-
tive and strong, mortgages of rail-
roads in the Southwest being in par-
ticular favor. Total sales, par value,
\$4,075,000.

United States bonds were all un-
changed on the last call.

The Pains of Kidney Disease

Warn You Against the Most Dreadfully Fatal of Disorders.
You Can be Cured by Promptly Using Dr. Chase's
Kidney-Liver Pills.

Pain is nature's signal whereby she warns
man of approaching danger. Few diseases
are so dreadfully fatal as disorders of the
kidneys and few are accompanied by more
severe pains and discomforts.

One of the most common symptoms of
kidney disease is the smarting, scalding sen-
sation when passing water which is likely to
come very frequently and at inconvenient
times. Then there is the dull, heavy aching
in the small of the back and down the limbs.
When these pains are accompanied by
deposits in the urine after it has stood for
twenty-four hours you may be sure that you
are a victim of kidney disease and should not
lose a single day in securing the world's
greatest kidney cure—Dr. Chase's Kidney-
Liver Pills.

Take one pill at a dose, and in a surpris-
ingly short time you will be far on the road
to recovery, for Dr. Chase's Kidney-Liver
Pills act directly and promptly on the kidneys,
and are certain to prove of great benefit to
any one suffering from irregularities of those
organs.

See that you get the genuine, with portrait and signature of Dr. A. W. Chase.

Sold in East Liverpool by Charles F. Larkins.

Don't imagine that you are experimenting
when you use Dr. Chase's Kidney-Liver
Pills. They are almost as well known as
his great Recipe Book, have made some of
the most surprising cures of kidney disease
on record and have come to be considered
the only absolute cure for kidney disease.

Mr. J. Curtiss, a well known R. R. engi-
neer, living at 191 Murry street, Bingham-
ton, N. Y., writes:
"Soon after going on the road I began to
be troubled by severe pains in my back,
accompanied by such terrible weakness that
I was obliged to stop work for days at a
time."

"Hearing of the good results obtained by
using Dr. Chase's Kidney-Liver Pills, I gave
them a trial. They helped me almost imme-
diately, and now I can truthfully say that I
am as well as any man, thanks to Dr.
Chase's Kidney-Liver Pills."

Long Life of Olden
Times Revived.

The Remedy Is Free to All Who
Send Name and Address.

After years of patient study, and delving
into the dusty record of the past, as well as
following modern experiments in the realm
of medical science, Dr. James W. Kidd, 2017
First National Bank building, Fort Wayne,
Ind., makes the startling announcement

DR. JAMES WILLIAM KIDD.

that he has surely discovered the elixir of
life. That he is able with the aid of a mys-
terious compound, known only to himself,
produced as a result of the years he has
spent in searching for this precious life-
giving boon, to cure any and every disease
that is known to the human body. There is
no doubt of the doctor's earnestness in
making his claim and the remarkable cures
that he is daily effecting seem to bear him
out very strongly. His theory which he ad-
vances is one of reason and based on sound
experience in a medical practice of many
years. It costs nothing to try his remark-
able "Elixir of Life," as he calls it, for he
sends it free, to anyone who is a sufferer,
in sufficient quantities to convince of its
ability to cure, so there is absolutely no
risk to run. Some of the cures cited are
very remarkable, and but for reliable wit-
nesses would hardly be credited. The lame
have thrown away crutches and walked
about after two or three trials of the re-
medy. The sick, given up by home doctors,
have been restored to their families and
friends in perfect health. Rheumatism, neu-
ralgia, stomach, heart, liver, kidney, blood
and skin diseases, and bladder troubles dis-
appear as by magic. Headaches, backaches,
nervousness, fevers, consumption, coughs,
colds, asthma, catarrh, bronchitis and all
affections of the throat, lungs or any vital
organs are easily overcome in a space of
time that is simply marvelous.

Partial paralysis, locomotor ataxia, drop-
sy, gout, scrofula and piles are quickly and
permanently removed. It purifies the en-
tire system, blood and tissue, restores nor-
mal nerve power, circulation and a state of
perfect health is produced at once. To
the doctor all systems are alike and equally
affected by this great "Elixir of Life."
Send for the remedy today. It is free to
every sufferer. State what you want to be
cured of and the sure remedy for it will be
sent you free by return mail.

J. N. Smith, Who Disappeared, Is Said to Be in the Smoky City.

It is said that J. N. Smith, who mysteriously disappeared from his home in this city several months ago, has been seen in Pittsburg. Friends have been notified and an effort will be made to locate him.

Entertained at Euchre.

Mrs. J. R. Warner on Thursday night entertained a number of friends at her home on Sixth street. Progressive games were the amusement of the evening. Light refreshments were served and the affair was much enjoyed.

A FALSE REPORT

John R. Reark Has Not Withdrawn From the Race for Township Clerk.

To the Voters of the City:
 I wish to deny the statement that I have withdrawn from the race for Township Clerk. I will state that I am in to stay to the end and ask all to consider my case and if possible lend me their support and influence. I intend to meet every voter in the city before the primaries if I can. I would kindly call their attention to the fact that as I am compelled to work almost every day, I will only have a limited time to make my canvass. Thanking my friends for past favors and hoping to continue the same, I am, Very truly yours,

ALL HIS CHARGES STRONGLY DENIED

MRS. WILLIAM STERLING SAYS HER HUSBAND FABRICATED.

Has Proof That She Is Not Guilty And Was Much Wronged.

The local police are congratulating themselves because they ignored the stories told them by William Sterling, who came here from Connellsville, Pa., a few days ago, as they are convinced that he grossly deceived them.

Not only did he lie, it is claimed, when he told about being robbed by his wife, but his story concerning her elopement with a boarder named Smithour has also been proven false. Mrs. Sterling, who is staying at the home of a friend, was interviewed by a reporter. She is an intelligent and sensible woman and is almost distracted as a result of her husband's actions. She denies every charge he makes against her and has an abundance of proof to show that all stories he told the officers here were manufactured by him.

The woman says her husband, who is an engineer, has not worked on a railroad for three years. She also says she left him last November because of his drunkenness and extreme cruelty. "He beat me time after time," said Mrs. Sterling, "and just before I left him he threatened to murder me. I kept boarders to support him and I can prove every word I say."

Friends of the woman told the reporter some shocking stories of how her husband had abused her, and ridiculed his claim that he had money in a building and loan company. They say he has been drunk for months and is on the verge of delirium tremens. The police are also of the same opinion.

Any person talking with Mrs. Sterling could not help but pity her. Her features bear out her stories of cruelty and the unmistakable look of honesty in her eyes cannot fail to instantly dispel any suspicion that she would be guilty of such a crime as her brutal husband has charged her with.

Chief Thompson has become indignant since learning the true circumstances of the affair, and it is likely that if Sterling comes back here he will be called on for an explanation of his conduct.

THOSE SHANTYBOATS

PROPOSITION TO TAX THEM CAUSES SPECULATION.

The Agitation Concerning the Improvement of Broadway Wharf Strongly Approved.

Discussion by members of the city council relative to the collection of taxes from the shanty boat denizens for wharfage meets with some speculation as to the practicability of such a ruling. A shanty boat man could move his boat and contents across the river or to some other unattachable spot prior to the appearance of the collector without very much exertion.

It is likely that the city wishes to reach more effectively certain firms or business men from whom a just rental for the use of the river front might be required. A charge of \$50 per year is made against the owner of the wharf boat and to this there is no objection. That is the prevailing charge by towns along the river to the owners of wharf boats, save at Wheeling the special tax is \$60 per annum.

Agitation in the council relative to the paving of the wharf at the foot of Broadway is meeting with favor, and an ordinance will no doubt be drawn up and passed, authorizing the improvement. Special annual taxes against users of the river front, who are entitled to pay for their privileges, would soon meet the expense in paving and otherwise making much better for the public the vicinity of lower Broadway. The improvement would also be of value from an esthetic standpoint that could go unquestioned.

Cincinnati has a similar topic under discussion. Her people are after a more attractive water front, and a few weeks ago, a meeting was held in which it was argued that there should be no charges against those engaged in river transportation or for wharfage, that the city had profited commercially by having river competition with the railroads in shipping, and that no obstacles should be thrown in the way of transportation by water.

A FALSE REPORT

John R. Reark Has Not Withdrawn From the Race for Township Clerk.

To the Voters of the City: I wish to deny the statement that I have withdrawn from the race for Township Clerk. I will state that I am in to stay to the end and ask all to consider my case and if possible lend me their support and influence. I intend to meet every voter in the city before the primaries if I can. I would kindly call their attention to the fact that as I am compelled to work almost every day, I will only have a limited time to make my canvass. Thanking my friends for past favors and hoping to continue the same, I am, Very truly yours,

ALL HIS CHARGES STRONGLY DENIED

MRS. WILLIAM STERLING SAYS HER HUSBAND FABRICATED.

Has Proof That She Is Not Guilty And Was Much Wronged.

The local police are congratulating themselves because they ignored the stories told them by William Sterling, who came here from Connellsville, Pa., a few days ago, as they are convinced that he grossly deceived them.

Not only did he lie, it is claimed, when he told about being robbed by his wife, but his story concerning her elopement with a boarder named Smithour has also been proven false.

Mrs. Sterling, who is staying at the home of a friend, was interviewed by a reporter. She is an intelligent and sensible woman and is almost distracted as a result of her husband's actions. She denies every charge he makes against her and has an abundance of proof to show that all stories he told the officers here were manufactured by him.

The woman says her husband, who is an engineer, has not worked on a railroad for three years. She also says she left him last November because of his drunkenness and extreme cruelty. "He beat me time after time," said Mrs. Sterling, "and just before I left him he threatened to murder me. I kept boarders to support him and I can prove every word I say."

Friends of the woman told the reporter some shocking stories of how her husband had abused her, and ridiculed his claim that he had money in a building and loan company. They say he has been drunk for months and is on the verge of delirium tremens. The police are also of the same opinion.

Any person talking with Mrs. Sterling could not help but pity her. Her features bear out her stories of cruelty and the unmistakable look of honesty in her eyes cannot fail to instantly dispel any suspicion that she would be guilty of such a crime as her brutal husband has charged her with.

Chief Thompson has become indignant since learning the true circumstances of the affair, and it is likely that if Sterling comes back here he will be called on for an explanation of his conduct.

UNION POTTERIES' SCALE MEETS WITH LITTLE FAVOR

Officers of the N. B. of O. P. Say It Would Destroy Present Good Feeling.

THE MOTIVE BEHIND IT

As a Manufacturer Sees It, Is a Scheme to Force a Trust to Be Formed.

A PROPOSITION TURNED DOWN

At the Pittsburg Meeting, He Explains, Led to the Promulgation of a Threat—Kilmen Reject the New Scale—Other News.

The new scale of prices which the Union Potteries company proposes has been the sole topic of conversation and discussion in the meetings of both manufacturers and operatives in the jurisdiction of the Western Manufacturers' association.

It was claimed from the beginning that there was some motive behind the move that would sooner or later come the surface. Among the more thoughtful members of the N. B. of O. P. the scale was looked upon with suspicion, and from the fact that this element had devoted a great deal of time to investigating the matter of selling price and rates of wages, under the provisions of the uniform scale of prices as they are enforced in this district, with the object of ascertaining whether or not the operatives were asking too much, the Union's course was regarded as a joke. They knew that the list proposed by the Union would be an impossibility with the manufacturers who have agreed upon a certain selling price to be observed by the members of the United States Potters' association.

In the light of this fact and the knowledge that the proposed list means an increase in wages that will amount to 30 per cent in every department of the plants controlled by this company, many operatives could see no other motive in the plan than to create a feeling of dissatisfaction between their real friends and the members of the Brotherhood. They feel sure that the new regulations will not be a permanent thing, and they will have none of it.

With the members of the United States association it is different. They have no difficulty in finding a solution of the somewhat mystifying proposition.

"When the association was in session at Pittsburg in December," says a prominent member of that body, "certain manufacturers were approached by A. M. Moreland, who proposed the formation of a gigantic trust in the pottery industry. He had a plan which looked well, and would, under ordinary circumstances, have tempted the average pottery man. However, the scheme was tabooed by all, and Mr. Moreland was not pleased. He used every argument at his command to make our people see the matter in the proper light, but the attempt was fruitless. He got no encouragement in any quarter, and made the statement that he would force the members of the association to leave the business of accede to his wishes. This declaration from Mr. Moreland was not taken seriously at the time, but it is now evident that he means to carry out the threat. This move for increasing the pay of the operatives is part of the plan. The increase in the pay of the men, it is acknowledged, will amount to 30 per cent all over the factory, and the fact that we know this concern is selling ware 20 per cent lower than the prices observed by our organization, makes it plain that this company has determined to carry out its threat to put the other pottery men to the wall."

Secretary T. J. Duffy was at the Union plant in this city yesterday morning and had a talk with Mr. Fowler. The gentleman told Mr. Duffy that the object of his company was to furnish some incentive for the men to make more and better ware. Mr. Duffy said today:

"The move on the part of the Union can have but one effect, if permitted to be carried out. Both manufacturers and men have been laboring for years to bring about conditions, with reference to the wages paid to operatives which would be satisfactory to both sides. They have accomplished this, and it is not our purpose

to permit any individual firm to interfere or spoil the present good feeling, if it can be avoided. If the company wishes to increase the output more could be accomplished in the way of better ware if the management would invest the money which it is proposed to pay in business, in increasing its bench room and other facilities. There are plenty of available workmen."

President Hughes arrived home from Cincinnati and Zanesville yesterday afternoon and when seen at headquarters this morning said:

"I certainly am strongly opposed to the new wage scale proposed by the Union. I saw it two weeks ago, and did not hesitate to condemn it. If there was not now a uniform list in effect here, I do not think the one in question would meet with the approval of our members. The statement has been made that this firm wants more work from its men, claiming much time is wasted. There is

POLICE AFTER HIM

ALLEGED CROOK SWINDLED A ROCHESTER BUSINESS MAN.

Represented Himself As Being a Catholic Priest—Thought to Be in This City.

R. H. Hartzell, a furniture dealer of Rochester, Pa., arrived in this city today and asked the assistance of Chief Thompson in locating an alleged impostor.

Hartzell says he was swindled out of \$18 worth of furniture by the fellow. The chief has a full description of his man, who is said to represent himself as a Catholic priest.

ON WEDNESDAY EVENING

Important Meeting of the City Republican Committee Will Be Held.

It was decided late this afternoon to call a meeting of the Republican city committee for next Wednesday evening.

The date will be fixed for the city primary at this meeting, and it is said some of the committeemen favor either March 15 or 22. The wishes of the candidates will be consulted, however, and a number of them would prefer a date some time during the month of February.

OF MUCH EXCELLENCE

Was the Entertainment By the Parker Concert Company Last Evening.

The entertainment in the high school course, given last evening by the Parker Concert company, was one of much excellence. The chief artists, under the direction of C. M. Parker, were: Miss Isabel Verne, soprano; Miss Pauline Lee, mezzo soprano; Mrs. C. M. Parker, contralto; Miss Martha Alexander, violinist; Miss Juanita Boynton, reciter.

Too much can scarcely be said in favor of Miss Boynton's readings or of her clever statue posings. A more accomplished elocutionist is rarely seen on any stage. Of the singers, Miss Verne perhaps won most favor with the audience, though the quartet and quintet songs were finely rendered.

The audience was large and most generous of its applause.

POTTERY AT YOUNGSTOWN

East Liverpool Men Interested in the Project Go to Mahoning Tomorrow.

A party of East End men, including Thomas V. Burton, E. M. Fisher and R. E. Larkins, also two men from Trenton, N. J., who are expected to arrive this evening, will leave tomorrow for Youngstown to attend a meeting of the board of trade of that city and consider a proposition for the establishment of a new pottery which will go to either Youngstown or Warren.

It has been intimated by letter that Youngstown will endeavor to make a more flattering offer than recently tendered, which was the bonus of a tract of land to afford a factory site, including a plat of town lots.

The gentlemen will take along with them samples of the kind of ware which the new plant will produce. They are vitreous china and said to be made from a body and glaze which is a secret to the Trenton people.

CROSS-COUNTY TROLLEY LINE

Scheme Again Revived, the Road This Time to Extend Down to Steubenville.

PART OF A BIG SYSTEM

By Which It Is Proposed to Connect Youngstown, Steubenville And the Large Towns of Columbiana. Work on Survey Promised Soon.

With the advent of winter weather it was generally predicted that cross-county electric railway projects would become caught in the freeze, not to be again sprung upon an anxious public until the appearance of the spring thaw, at least. However, that this is a mistaken theory, the following intelligence, said to be based on good authority, which is taken from a Lisbon paper, is self-evident:

"During the past 10 days J. J. Hensen and Thomas M. Goodman, of New York, and Theodore Ward, of Philadelphia, representing large New York and Pennsylvania interests, have been quietly working on a new scheme for the building of an electric line across this county.

"Their idea is to connect Wellsville with Steubenville, then build either from Wellsville or East Liverpool by way of West Point to Lisbon and Salem and probably on to Sebring to connect with the Stark electric line. They also intend to build a line to Youngstown, either from Salem by way of Canfield, or from a point near Franklin Square by way of Leetonia and Columbiana, and thence down Mill Creek to Youngstown.

"Mr. Hensel is an engineer of wide experience in railroad construction, and while he realizes that the cost of building a part of the proposed line will necessarily be heavy, namely the part between Lisbon and East Liverpool, he also knows that much of the north end will be comparatively light and has said that the average cost per mile would be even less than his people had figured on.

"It is understood arrangements are being made to organize at once and secure a charter, and that engineers will begin work on the location of the line within the next 30 days."

A 'BIG INJUN' SURE

Chief of Party of Braves Going to Washington Is of Massive Build.

A party of 13 Pawnee Indians, in charge of Chief Smyea, who is 83 years old and almost seven feet high and weighing 300 pounds, were passengers on a Ft. Wayne railroad train yesterday afternoon on which a number of local people returned part way home from Lisbon.

The Indians were in charge of 12 cavalymen. Their mission to Washington is to endeavor to get an extension of time of a treaty made with their tribe by the government in 1846, which is about to expire.

QUITS THE RACE

Johnson, of Elkrum, Will Not Be a Candidate for Recorder.

Lisbon, January 18.—(Special)—John M. Johnson, of Elkrum, has announced his withdrawal from the contest for recorder. He says his poor health will not permit him to make a canvass in winter weather.

COCKING MAIN

East Liverpool And Wellsville Sports Fought Their Birds Near Wellsville.

East Liverpool and Wellsville parties had a chicken fight Thursday night near Wellsville. One hundred dollars changed hands. There were four mains and the Wellsville birds are said to have come out ahead.

Funeral at Salineville.

The funeral services over the remains of Mrs. Hoey, who died at her home at Salineville Wednesday, were held yesterday afternoon. Interment was made at the Salineville cemetery.

First to Enter.

R. G. Boyd, of Liverpool township, a candidate for county commissioner, was accidentally omitted from the list of candidates published yesterday. He was the first to enter the race.

HARMONY RULED AT THE MEETING

Republican Gathering at Lisbon Was Most Satisfactory In All Respects.

THE CHANCES IN THE RULES

Gratifying to Committeemen And Republicans Generally—The Object Is to Leave the Rank And File No Grounds for Complaint.

The meeting of Columbiana county Republicans held in Lisbon yesterday was the best attended and most harmonious that has assembled in many years.

The rules adopted were good ones, and if the primaries are not conducted in a manner which will be satisfactory to the candidates and voters, it will not be the fault of those who drafted them. The committee adopted very few of the clauses contained in the resolution brought before the committee a year ago by Judge P. M. Smith, of Wellsville.

Mr. Chamberlain and his committee took up the old rules and made a number of amendments. Several new and important regulations were added to the code, and the result was gratifying to both the committee and the party generally.

Hon. R. W. Taylor took occasion to say at the close of yesterday's session that the rules were most excellent ones, and if they were observed to the letter no one would have cause for complaint. He complimented the committee for their good judgment, and congratulated the party upon its good fortune in having the excellent system provided.

Mr. Chamberlain was interviewed yesterday and said: "The purpose of our committee was to see that the great mass of the party were protected. It has always been my desire to so conduct the primary elections that the wishes of the rank and file of the party be concurred in, and to so frame the rules that the majority of the members of the Republican party and not the county or township committeemen shall control the primaries."

The change in the manner of placing names for the position of committeemen on the ticket is thought to be a good one. With the three names selected in caucuses there will be three blank spaces upon the ticket to enable anyone who was not present at the caucuses to vote for anyone he chooses. The adoption of this rule will do away with a great deal of dissatisfaction in East Liverpool, where the claim has often been made that the city committeemen have too much authority. It will be remembered a few years ago a local rule was adopted requiring aspirants for central committee to file their names with the clerk of the committee after the manner pursued by other candidates, a certain length of time before the primary. So much objection was made that the plan was abandoned. It is now thought with the system in effect in every precinct in the county the voters will accustom themselves to it.

There were a number of clauses in the rules of Judge Smith which outlined the course to be taken by anyone having a grievance against primary election officers for neglect of duty or other irregularities. This the committee did not consider.

FIRST AT THE JAIL

Sheriff Leonard Now Has a Boarder at the County Bastile.

Lisbon, January 18.—(Special)—Sheriff Leonard was in New Waterford yesterday and returned last evening with Wallace Shisler, whom the grand jury indicted on three counts for violation of the liquor laws.

Shisler will have the honor of being the first boarder at the new sheriff's.

TWO PIONEER POTTERS

News of the Deaths of C. E. Hawthorne And Ralph Hammersly.

Charles E. Hawthorne, an old time potter, died recently in Indianapolis, Ind. He was born in Burslem, England, in 1819, and in 1847 came to East Liverpool, where he founded a pottery and operated it until 1850. He married Harriet James, of Cincinnati, in 1849 and the following year moved to Indianapolis. There he engaged in

POISONOUS FUMES OF GAS NEARLY CAUSE A FATALITY

the queensware business with Thomas Buehman, and in 1868 branched out into the wholesale business. Since then he has been engaged in traveling, a portion of the time in England. He gained a good property, was a Democrat and a respected citizen. He leaves no children.

Ralph Hammersly, said to be the oldest potter in the United States, long connected with the Rookwood pottery, died a few days ago in Indianapolis. He was well known in East Liverpool. When the Rookwood pottery was started in Cincinnati he became connected with it, and for many years was a valued employee. He was 78 years of age, and he and his wife celebrated their golden wedding some years ago. The account of his death was sent to this city by Isaac Dover, who is in the queensware business at iKngstown, Ind., to John Garner. Mr. Garner is an old resident here, and with many others, remembers the pioneer pottery workers of the city.

SEARCH ABANDONED

FOR THE BODY OF FRANK FELTS, DROWNED HERE.

Believed That the Swift Current Has Carried the Corpse Far Down Stream.

Search for the remains of Frank Felts, who was drowned near the wharf boat Sunday night, has been practically abandoned. Opinion of persons who are acquainted with the water and the channel is that exploration at that point will be useless and that the wisest plan is to await the discovery of the corpse when it rises to the surface.

During warm weather a body will rise in from two to four days after drowning, but in winter time it is usually nine or ten days before decomposition effects that turn.

Cards have been mailed by the chief of police to all towns below to be on the lookout for the body.

When the accident happened ice almost filled the river, and a stiff wind was blowing from the shore. The large packet, Keystone State, which was unloading freight, found it necessary to keep her wheel revolving to steady her against the wharf boat, and as Felts was drowned on the south of the rear of the steamer it is probable that his body was washed well out into the channel and may have floated for a long distance.

Broken in pieces was the frail skiff which came in contact with the wheel. Just why Felts and his partner, Cunningham, were rowing around the boat at 10 o'clock on a severely cold night has not been satisfactorily explained, but a story of an overheard conversation has been related to the police department.

The drowned man's father, who resides at Williamstown, W. Va., has refused to render any assistance in looking to the recovery of the remains and has tendered no aid to the poor widow and her child. Mrs. Felts said last evening that she had not heard from any of the relatives of the deceased and that she had no relatives of her own. She and her little boy will remain in this city for a time, as they have no home.

WANTS HIS DEED

A Lisbon Man Sues a Woman on an Alleged Unfilled Contract.

Lisbon, January 18.—(Special)—Charles Horsefall has sued Mary Alice Horsefall, asking the court to compel on her part specific fulfillment of contract. The plaintiff alleges that while he was still a minor he purchased lot 445, in Firestone's addition to Lisbon for \$750.

The deed was made out in her name with the agreement that she would turn over the property to him when he became of legal age. He says that he has offered several times to complete his part of the contract, but she refuses to surrender the deed.

Abandons Pulpit for Oil.

Massillon, January 18.—Rev. Frank H. Simpson, for many years pastor of the First Church of Christ here, has resigned his pastorate and is devoting his time to promoting oil deals. He has organized companies to operate in Butler county, Pa., and is now forming one to operate in Van Wert county, O. It is said that he cleared \$8,000 in the last two months. He is a zealous advocate of Christian Science and is said to have cured himself of consumption by faith.

Mrs. Elijah H. Kelly Overcome While at Work In Her Kitchen.

ALMOST DEAD WHEN FOUND

Physician Worked Three Hours Before Restoring Her to Consciousness.

HER SON WAS ALSO OVERCOME

But, in Falling, His Head Alighted By a Door Sill, Where He Could Breathe Fresh Air—Gas Escaped From a Kitchen Stove.

Overcome by gas, which did its work so quickly that she could make no outcry, Mrs. Elijah H. Kelly, residing on Daisy lane, near Calcutta road, lay for almost three hours in an unconscious state yesterday while a physician, who was summoned with all possible haste, resorted to almost every means known to science to save her from death.

Success finally rewarded his efforts, though his patient had an extremely close call. This morning she felt almost as well as ever, except for a severe headache.

Her son William was also overcome. He was in bed at the time his mother fell to the floor, and thinking she had fainted rushed to her assistance. No sooner had he reached her side than he, too, fell over. His head was near the door sill and he soon revived.

He rushed for a doctor, who soon detected the presence of escaping gas. Mrs. Kelly was revived with the great difficulty.

All the doors of the house were thrown open to allow the poisonous fumes to escape. The supposed cause of the trouble is that the gas in a cook stove was turned on too full.

Mrs. Kelly, at the time she fell, held a large butcher knife in her hand, but escaped being cut.

A FAMOUS ROAD CASE

Decided for the Sixth Time—Other Matters in Probate Court.

Lisbon, January 18.—(Special)—In the suit of John Patterson versus Lizzie Pollock et al, the decision is in favor of the defendant. Patterson lives in Elkrum township. Three or four years ago he sued the Pollocks to compel them to keep open a private roadway through their farm. Twice before he had petitioned the township trustees to compel the Pollocks to allow him the use of the road.

The case has been tried once in common pleas court and for the third time in probate court. Each time the decision has been against Patterson.

The case of W. C. Speaker against W. S. Potts, administrator of Peter Speaker, of Center township, has been fledged in favor of the plaintiff. The suit was to compel a distribution of funds in the administrator's hands. The decision awards \$393 to the plaintiff.

Charles H. Fraser, of Wellsville, has filed application for the admission of Bertha May Gould, of Wellsville, to the Ohio hospital for epileptics. The case is set for hearing next Monday.

Robert W. King, executor of the estate of Daniel McAllister, late of Hanover township, reports that he has been unable to sell at private sale the property ordered sold. Therefore the court has ordered a public sale.

LOSES FOUR FINGERS

A Signal Man Meets With a Mishap at a Planing Mill.

Lisbon, January 18.—(Special)—Jefferson J. Dickey, while at work at his planing mill at Signal this morning, had his hand cut. Four fingers will have to be amputated.

Guests Brought Tinware.

A number of young friends of Mr. and Mrs. Joseph Davis, a bride and groom of the East End, called upon them last night. Each guest brought a piece of tinware as a reminder of the household responsibilities of the young wife. Games were a feature of the evening. Refreshments were served and an enjoyable evening was had by all present.

FINE PROGRAMS WERE PRESENTED

High School Societies' Literary Exercises Were of a High Order.

GOOD MUSIC AND ORATIONS

First Entertainment of the Kind in the New Year Was a Most Decided Success—The Three Programs in Full.

Very interesting literary exercises were held in the several societies of the high school yesterday afternoon. This being the first occasion of its kind since the beginning of the new year, great pains were taken to make it a success in every way. The principal and her assistants had no reason to be disappointed in this, for all their efforts proved quite flattering in their results.

The programs were especially fine and each of the organizations won for itself new laurels. The programs were as follows:

FINE WATER CRESS, "IT'S GREEN," EAST LIVERPOOL'S BUSIEST STORES, GEON BROS.

TO THOSE WHO DRINK Meredith's Diamond Club Pure Rye Whiskey.

It is suggested that the addition of water, still or carbonated, does not in the slightest affect the unmistakable flavor and aroma which are peculiar to it.

A Diamond Club High Ball or Rickey is the best there is.

EAST END

UNDER A BIG STONE

Elijah Fetrow Was Pinioned And Narrowly Escaped Being Crushed.

Elijah Fetrow, who lives near Dry Run, and James Cowan were hauling stone from a hillside back of Columbian park yesterday. In hauling a large square boulder that weighed a ton or more behind a team of mules, Cowan was driving and Fetrow was walking by the side of the stone.

The chain suddenly slipped and the stone rolled quickly to one side toward Cowan, who endeavored to jump but fell. As he dropped into a low spot the full weight of the rock did not crush him, but he was pinioned to the earth, his right shoulder and arm being bruised. By speedy efforts Cowan managed to release him.

COMING ENTERTAINMENT

Pleasant Musical and Literary Program at the Second Presbyterian Church.

There will be an interesting musical and literary entertainment at the Second Presbyterian church next Tuesday evening. The program is as follows:

BACK FROM MANILA

Isaac and John Shingleton Return From Service For Uncle Sam.

Isaac Shingleton and son, John Shingleton, have returned from the Philippines where they have completed a three-years' enlistment with Company A, Twelfth regiment. They did garrison duty near Manila much of the time, but were in several hot engagements with Filipinos on the island of Luzon.

Neither received any injuries, but they do not wish to re-enlist.

Dislocated His Wrist.

While running a footrace with a companion last evening, James Richardson, aged 21, who works at the National pottery, fell. The large bone of his right wrist was thrown out of place and a physician had to be summoned to the residence of Edward Wilson, on Island avenue, during the night to allay his suffering.

Suit for Wages.

The case of W. L. Bennett against John C. Mushrush, which was to have been tried this morning before Justice L. W. Carman was postponed for one week on account of the illness of the plaintiff. He claims \$22 due for services as clerk in Mushrush's store, recently closed by the constable.

Wedding Tonight.

The marriage of William M. Barrymore and Miss Rosa Lawson will be solemnized this evening at the residence of the bride's parents, Mr. and Mrs. William Lawson, near the Horace Mann school building.

EAST END AFFAIRS.

Charles Wright is ill with typhoid fever at his home in Dixonville.

Rev. W. E. Hill has moved into his new residence on Ohio avenue.

A drainage well, 12 feet in depth, is being dug at the American sewer pipe works.

An Attack of Pneumonia Warded Off.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by Alvin H. Bulger, Druggist.

300 PROBABLY DEAD.

As Many More Thought Injured, by Earthquake Shock, in Mexico.

CAPITOL AND CHURCH RUINED

Also Many Business Houses and Residences Destroyed at Chilpancingo, in the State of Guerrero. Details of the Catastrophe Meagre.

Mexico City, Jan. 18.—One of the most terrible catastrophes ever recorded in the State of Guerrero, is reported to have occurred late Thursday afternoon, when an extremely violent earthquake shock was felt at Chilpancingo, causing a great loss of life and injuring many persons. Details Very Meagre.

Details from the stricken district are very meagre, but scattering reports received here indicate that probably 300 persons were killed and as many more injured. It is known that the State capitol, the parish church and many business houses and residences are in ruins, and there is much suffering, as a result of the awful seismic disturbance. One of the edifices that suffered most was the Federal telegraph office, which explains the paucity of news that has reached this city so far. Later meagre details began to arrive here. The telegraph lines and apparatus at Chilpancingo were badly damaged, but the employees, all of whom were injured, quickly proceeded to erect an improvised telegraph office on the outskirts of the city.

The number of deaths was greater in the parish church than in any single place as a crowd of worshippers were gathered there for the afternoon service. The solid masonry-walled roof came toppling down on the worshippers as if it had been wrenched from its bearings by a thousand strong hands. Several people were killed there.

The war department has ordered the troops in the neighborhood to co-operate in the work of rescue. Until this work is completed it will be impossible to learn accurately the number of victims. It is believed, however, that this is one of the most destructive seismic phenomena that has occurred in Mexico. The greater part of the people of Chilpancingo are now camping out under trees around the town, which is five days' journey from the national capital. Earthquake shocks were felt in many other cities and towns.

Damage in Mexico City.

In Mexico City the earthquake took place at 5:17 Thursday afternoon, and was of such violence as to shake the most substantial buildings. The Pan-American congress was in session at this time, and many of the delegates were greatly alarmed. The first movement was one of trepidation, and was very sharp. It was followed by an easier oscillatory movement north-northeast to south-southwest. The duration was 55 seconds. The damage in the city was only slight.

The State of Guerrero has always been the focus of seismic disturbances. Reports received here last night state that the shock was very severe at LaLapa. No casualties are so far reported from there.

A MYSTERIOUS CRIME.

A Horse and Buggy Stopped Before Barn Without a Driver.

Coffeen, Ill., Jan. 18.—A horse and buggy stopped in front of a livery barn here Thursday night without a driver. Investigation showed the buggy contained the dead body of Miss Gertrude Clifford, who lived near Donnellson, and Fred Brockman, unconscious and almost dead.

Miss Clifford was taken to an undertaking establishment and Brockman was given medical attention. He was restored to consciousness and put under arrest. The girl's death was caused by a bullet wound through the temple. Brockman had two bullet wounds in the head. It is doubtful whether he will live.

When asked about the affair he refused to say anything except that a letter would be found in the buggy.

How About Your Heart

Feel your pulse a few minutes. Is it regular? Are you short of breath, after slight exertion as going up stairs, sweeping, walking, etc? Do you have pain in left breast, side or between shoulder blades, choking sensations, fainting or smothering spells, inability to lie on left side? If you have any of these symptoms you certainly have a weak heart, and should immediately take

Dr. Miles' Heart Cure

Mr. E. H. Oaks of Jamestown, N. Y., whose genial face appears above, says: "Excessive use of tobacco seriously affected my heart. I suffered severe pains about the heart, and in the left shoulder and side; while the palpitation would awaken me from my sleep. I began taking Dr. Miles' Heart Cure and soon found permanent relief."

Sold by all Druggists, Dr. Miles Medical Co., Elkhart, Ind.

to explain matters. The letter was found in his overcoat. Officers took charge of it and declined to make public its contents.

Miss Clifford was a member of a highly respected family near Donnellson, and was about 20 years of age.

Fred Brockman is 20 years of age, a son of Hiram Brockman, of Coffeen.

UNABLE TO SEE SIGNALS.

New York Central Superintendent Admitted Old Engineers Ran Past Them.

New York, Jan. 18.—Joseph H. Franklin, manager of the New York Central roads terminal in this city, was yesterday recalled as a witness in the coroner's inquest to determine the responsibility for the recent wreck in the company's tunnel, in which 17 lives were lost.

Answering District Attorney Jerome, Mr. Franklin said: "There was nothing to prevent an engineer from making a terrible mistake except the signals, and that even old engineers had run past these signals in broad daylight."

Reports of engineers were offered in evidence. One engineer said he had missed the distance signal, had run by the green precautionary light and then had gone a whole train length beyond the signal before being able to bring his train to a stop. The testimony of other engineers was on similar lines.

William Kinch, superintendent of signals for the New York Central road, said that the signals worked properly on the day of the wreck, said that the disaster was due to excessive speed and disregard of the signals by the engineer. After some comparatively unimportant testimony an adjournment was taken until next Monday morning.

A TARIFF COMBINE

AGAINST GERMANY.

Vienna, Jan. 18.—Austria and Russia, it is stated, have agreed to combine in a tariff war system against Germany if the German tariff system is made a law. Roumania and Serbia, it is further stated, have signified their readiness to adopt similar measures and a European league against Germany is probable.

Rev. Brewster Called.

COUNTY AND NEIGHBORHOOD

Steubenville citizens are making a strong play for a new county jail. Daniel Pritchard, the oldest resident of Beaver county, Pa., is dead. He was 99 years of age.

Phillip Belveal, a Steubenville carpenter, fell from a scaffold and had several ribs broken.

Sheriff Gilson arrested John Kelly, of Bergholz at Salineville yesterday. He was indicted for selling in a local option township.

New Alexandria has quarantined against Mingo, and revival meetings in progress at the former town have been discontinued.

Frank Lacour, a brakeman, aged 22, was crushed under the wheels of a car in the Conway yards and died a few hours later in the Beaver county hospital.

L. W. Faust, a farmer of Fredericktown, Knox county, has succeeded in teaching his dog to smoke a pipe, which the animal does with evident satisfaction.

George Vaughn, a prominent contractor, is under arrest at Youngstown charged with having attempted an assault on Mrs. Stephen Roberts, wife of a mill worker.

"Bub" Walton was arrested at Martin's Ferry yesterday charged with being implicated in the robbery of Mrs. Joseph Gehring at that city last Saturday evening, when a satchel containing \$1,400 was stolen from the woman.

Regulations issued by the Brilliant board of health provide that no children shall be admitted to the schools who have not been vaccinated within the preceding five years. Physicians are required to wear rubber suits when attending smallpox patients.

ONLY PIPE DREAMS

The Italian Who Told Shocking Stories of Murder at Mingo Is Crazy.

Steubenville, January 18.—The Italian laborer, who told a harrowing story of murder and torture to employees of the Wabash railroad in West Virginia, has been adjudged crazy by the local officers and shipped to Pittsburgh. After he startled the citizens of Mingo with the story of the shocking crimes, he came to this city and late last night he ran up a principal street yelling and whooping, until he fell into the hands of the police. He was taken to the mayor's office, where he told another story of a robbery at the W. & L. E. depot in this city, in which he said he had been relieved of all his money. His clothes were searched and a considerable sum was found, which dispelled his story of a robbery. As he appeared demented he was kept in the lockup over night and this morning put aboard a train for Pittsburgh.

Burglars' Bold Job.

Steubenville, January 18.—Burglars on Thursday night entered and looted the Southern Supply company's store in this city. Entrance was effected by tearing a hole in the 24-inch wall under a window; after an unsuccessful attempt to enter the back door. The robbers secured a wagonload or more of plunder besides a sum of money in the cash drawer. There are no clues.

HALF OUR ILLS ARE CATARRHAL IN NATURE.

Catarrhal Diseases are Most Prevalent in Winter.

IS THERE NO WAY OF ESCAPE FROM THEM?

Pe-ru-na Never Fails to Cure Catarrh Wherever Located.

There are some things which are as sure as fate, and can be relied on to occur to at least one-half of the human family unless means are taken to prevent.

First, the climate of winter is sure to bring colds.

Second, colds not promptly cured are sure to cause catarrh.

Third, catarrh improperly treated is sure to make life short and miserable. Catarrh spares no organ or function of the body. It is capable of destroying sight, taste, smell, hearing, digestion, secretion, assimilation and excretion.

It pervades every part of the human body, head, throat, stomach, bowels, bronchial tubes, lungs, liver, kidneys, bladder and other pelvic organs.

That Peruna cures catarrh wherever located is attested by the following testimonials sent entirely unsolicited to Dr. Hartman by grateful men and women who have been cured by Peruna:

Catarrh of The Head.

Mr. D. R. Ramsey writes in a recent letter from Pine Bluff, Ark., the following:

"My son, Leon Ramsey, four years of age, suffered with catarrh of the head for eighteen or twenty months. He took one bottle of your Peruna and could hear as good as ever."—D. R. RAMSEY.

Catarrh of The Nose.

Mr. Herman Ehlike, 952 Orchard street, Milwaukee, Wis., writes:

"I am entirely cured of my catarrh of the nose by your Peruna. My case was a severe one."—Herman Ehlike.

Catarrh of The Throat.

B. H. Runyan, Salesville, O., writes:

"I suffered with catarrh of the throat for five years. I was induced to try Peruna. I have used five bottles and am perfectly well."—B. H. Runyan.

Catarrh of The Ear.

Mr. Archie Godin, 188 Beech street, Fitchburg, Mass., writes:

"Peruna has cured me of catarrh of the middle ear. I feel better than I have for several years."—Archie Godin.

A TEN STROKE FOR PERUNA.

Catarrh of The Lungs.

Mrs. Emilie Kirekhoff, Ada, Minn., writes:

"Through a violent cold contracted last winter, I became afflicted with catarrh of the nose, which in a short time affected my lungs. I took Peruna which cured me thoroughly. I now feel better than I have for forty years."—Mrs. Emilie Kirekhoff.

Catarrh of The Bladder.

Mr. John Smith, 311 S. Third street, Atchison, Kan., writes:

"I was troubled with catarrh of the urethra and bladder for two years. At the time I wrote to you I was under the care of my home doctor, and had been for four months.

"I followed your directions but two months, and can say Peruna cured me of that trouble."—John Smith.

Catarrh of The Bowels.

Mr. Henry Entzion, South Bend, Ind., writes:

"The doctor said I had catarrh of the bowels and I took his medicine, but with no relief. I was getting worse all the time.

"Before I had taken a half bottle of Peruna I felt like a new man."—Henry Entzion.

Catarrh of The Kidneys.

Peter J. Ungor, Hawley, Pa., writes:

"I think that I am perfectly cured of catarrh of the kidneys by Peruna, as I have no trouble of any kind."—Peter J. Ungor.

Catarrh of The Stomach.

A. W. Graves, of Hammond, Ind., writing to Dr. Hartman, says:

"I am well of catarrh of the stomach after suffering two years. I have taken five bottles of Peruna and one of Manalin and I feel like a new man now."—A. W. Graves.

Pelvic Catarrh.

Miss Katie Lochman, Lafayette, Ind., writes:

"I had pelvic catarrh, pain in the abdomen, back, had stomach trouble and headache caused by catarrh. I followed your directions; took Peruna and Manalin according to directions, and how happy I feel that I am relieved of such a distressing ailment."—Miss Katie Lochman.

Once more the cross-county street railway project is being agitated. As usual, it is outsiders who are projecting the lines and who are expected to pay for them. The fate which has overtaken numerous schemes of the same sort ought to teach the home people a lesson. That is, if they are in earnest in desiring to have an electric railway from East Liverpool to the county seat—and nine-tenths of the people of both towns, as well as those along the route desire it—they should demonstrate their interest by taking up the matter and pledging their assistance. Money talks. If Columbiana county capitalists would get together and subscribe a portion of the money that would be required to build such a road, there would be little difficulty in getting outsiders to put up the rest. The investment, we believe, would be a paying one, in a very short time, if not at the start. Home capital invested would insure the placing of local business men upon the board of directors, and they, familiar with the wants of the people, would be in a position to materially assist in securing prudent management. Street railways are being built in many sections of the county connecting far less important towns than East Liverpool and Lisbon, but it will be noted that in almost every instance local capital is a factor in building them. There are very few trolley roads that are not profitable to their owners, and the great majority of them are growing more valuable very rapidly. An opportunity for great possible profit, as well as lasting benefit to a large section of the county, should not be overlooked by our citizens.

Good progress is being made toward the establishment of civil rule in the Philippines, and bills are now pending in congress looking to the more rapid extension of the system. But it must be remembered that, in the nature of things, for a good many years to come, whatever laws may be enacted, soldiers will be needed, to cooperate with the civil authorities in maintaining order in the islands. It is highly probable that one long native Filipino, under the command of American officers, can be employed to advantage in this work. Indeed, some experiments of this sort were tried some time ago and were reported to work well. Great Britain, in several of her possessions in India, depends largely upon native soldiers. The sooner the Filipinos can be taught to co-operate in governing themselves the better for them, to say nothing of the lessening of expenses to this government.

A representative of the German navy who recently visited American shipbuilding plants reports to the emperor that he found in this country "a splendid body of workmen earning wages from 30 to 50 per cent higher than those paid in Great Britain and 100 per cent higher than those paid on the continent." What most impressed him in this country was the large use of labor-saving machinery, especially of the pneumatic boring, hammering and riveting machines, which, while familiar in the United States, are almost unknown in Europe. He adds that materials for the construction of steel ships are lower here than in any other country.

Canada is able to count only 5,369, 666 Canadians in her census. Had the enumerators looked on this side of the border they could have swelled

the figures materially. Thousands of the brightest and most ambitious young Canadians, when they start to make a home, come over to Uncle Sam's territory to do so.

The Republican county committee's new rules for the regulation of primary elections are a long step in the right direction. Diligently lived up to, they can scarcely fail to prove beneficial.

They have discovered gold out in Kansas, but the greatest yield of gold still comes from their wheat and corn.

Two games of basket ball were played last evening at the Y. M. C. A. The game between Louthan's and Armour's teams resulted in a score of 42 to 15 in favor of Louthan. A game between the Rigby and Green teams was won by Rigby, the score being 42 to 15.

FINIS.

Life's day is short; the evening bell
Soon, solemnly, will toll
O'er us, to earth, our last farewell.
O man, where goes thy soul?

A few short hours of pain, of tears,
Of striving toward some goal,
(That phantom fades as evening
nears),
O man, where goes thy soul?

Though we may reach some plane sublime,
Our names etch on fame's scroll,
What matters that at evening time,
O man, where goes thy soul?

AT THE THEATER

A play that is true to life, especially one that depicts human nature in both humorous and pathetic models, always is successful. The more absolute fidelity, the greater its success. This, in a great measure, accounts for the enormous popularity of "Lovers' Lane," which, after playing five months in New York and all summer in Chicago, will come to the opera house for the stage hands benefit next Tuesday night. Clyde Fitch has cleverly depicted in this delightful play of small town life, many real life happenings that have excited recent comment in the newspapers.

"Are You a Mason?" will be presented at the opera house for the Knights of Pythias benefit January 27. In "Are You a Mason?" Rich & Harris' possess the most successful farce of recent years. It is an adaptation from the German of Laufs & Kratz. "Are You a Mason?" is a model of its kind. A farce comedy that is one, clean, bright, laughable, replete with smart dialogue, the apotheosis of farce and intelligent stage craft.

Found Dead in a Hotel.

Steubenville, January 18.—George W. Wallace, aged about 48, who for a number of years has conducted the livery business at Brilliant, was found dead in bed at the Dewey hotel, in this city, about 12 o'clock Thursday night by the porter. An empty box, which had contained morphine, was found in his room, which would indicate suicide, though his friends think he took the drug to induce sleep and unknowingly got too much.

UNION POTTERIES' SCALE

(Continued from First Page.)

not another industry in America in which the workmen are more addicted to the habit of placing watches and clocks before them for the purpose of timing the progress of their work. The proposed scale will not only tend to produce inferior work, but inferior workmen.

Kilmen's local No. 9 turned down the proposition presented to the kilmen of the Union pottery at a meeting in Brotherhood hall last evening. Not for two years has the attendance been so large, it being estimated that over 200 kilmen were present. After routine business was completed a statement was made to the local by National Treasurer John T. Wood, relative to the proposition of the Union, after which every phase of the proposition was considered and it was decided to a man to reject the offer of the Union company. It is the desire of the kilmen to stand by the uniform wage scale, and not to alter any portion of the present agreement until after its expiration.

Treasurer John T. Wood left this morning for New Cumberland, spending several hours at the Chelsea pottery, advising the workmen of that plant of the action taken by kilmen's local No. 9 last evening. It is said that officials of No. 9 had been advised that some employees of the Chelsea had looked with favor on the new proposition of the Union company. Mr. Wood is expected home this evening and will make a report of his visit at the next meeting of the local.

In response to a telegram sent to A. M. Moreland, president of the Union Potteries company, this morning, regarding the action of the kilmen, the News Review this afternoon received the following message: "Our position was fully defined in the telegram sent to the News Review Wednesday."

Official announcement has been made that within a few weeks the warehouse employees of the Union pottery in this city, and also at the Chelsea, at New Cumberland, will be asked to work only eight hours a day instead of 10 hours as at present, with no reduction in wages. Notices to this effect will be posted in both factories shortly.

It is said that it is the conviction of President Moreland, of the Union company, that workmen are able to do better work by being employed eight hours a day instead of ten.

The biscuit kiln hands at Laughlin's No. 2 were obliged to loaf today for a want of ware. Orders have been heavy and the general force of employees too light to keep stocked up. Men who were expected to resume their places since the holidays have not all gone on duty, but it is expected that by next week there will be a sufficient force to alleviate the distress. Shafting and machinery, which arrived a few days ago for the new addition, are now being put into position.

Warehouse women's local No. 7666 held a special meeting Thursday evening to consider the reduction of girls employed in the warehouse of the Cartwright pottery. About 10 girls were formerly employed where now seven are employed. It is announced that as these girls are not in the local no action can be taken, while the company claim they have the privilege to draw the girls by contract. The girls now make \$1 a day. Formerly they got \$1.2 cents.

W. C. Lynch, salesman for Laughlin's, who had a large piece of bone removed from his left shoulder at the Mercy hospital at Pittsburgh last week, returned home yesterday. His room at the hospital was given to County School Superintendent Samuel Hamilton, of Pittsburgh, who had both feet cut off by a train a few days ago. Mr. Lynch will not lose the use of his arm, although at present the injury is causing much pain.

During a meeting of kilmen's local No. 9 last evening three candidates were obligated and applications received from two persons. During the meeting propositions that will likely be presented at the annual convention of the N. B. of O. P., which will be held at Trenton, were formally discussed. The session was by far one of the most interesting held by the local for months.

Quite a change will be made in the warehouse of the National pottery. It has been decided to remodel a portion of the basement in which will be stored "thirds." This will give sufficient room in other parts of the factory for a large addition to the decorating department, which is needed badly.

The printers who have returned to work at the potteries controlled by the East Liverpool Potteries company, have done so under protest. While the dispute is on other orders

can be worked upon as usual. It is likely the matter will be settled by the arbitration board within a few days.

W. C. Browne, who has been traveling through the east in the interest of the Dresden pottery, has been favored with some very large orders since he started out. A letter received from Mr. Browne by this firm yesterday stated that the outlook for a large spring trade was encouraging.

At a meeting of Packers' local No. 25, held last evening in the Knights of Columbus hall, a letter was read from the packers of the Ford City pottery was read. It is understood that a difference exists at this plant between the packers and the company.

Floyd Chetwynd, mold runner for James Mount, a jiggerman at the East Liverpool pottery, is ill at his home and threatened with fever. Ormes Jackson, batter-out for the same jiggerman, is also ill with jaundice.

Horace C. Grey, president of the Cincinnati Glass & Crockery company, arrived in the city yesterday and will remain here several days placing orders. The firm is one of the largest of the kind in southern Ohio.

The East Liverpool Potteries company will hold their annual meeting next Tuesday. Their samples and catalogues are now practically ready and the majority of their salesmen will leave next week.

W. J. Beight who for several years was employed in the warehouse of the East Palestine pottery, has left that firm and taken a similar position with the Thomas China pottery at Lisbon.

William Baxter, a kilnman at the East Liverpool pottery, has moved his family to Calcutta. Several other kilmen employed in the local potteries are now residing at Calcutta.

Miss Lottie Trenerey, of Uniontown, Pa., has taken a position as special decorator at the National pottery. Miss Trenerey came to this city recently. She is residing in the East End.

Representatives of the jobbing house of C. G. Dunnom & Co., of Chicago, were in the city yesterday. Some large orders were placed with the Union company.

A new toilet shape is being made at the Buckeye, the first pieces being made yesterday afternoon. The shape is very pretty and sure to receive a large sale.

John Sant, a clay salesman, who has been traveling through the eastern part of the state visiting several potteries, returned home yesterday evening.

John Hancock, a kilnman at the D. E. McNicol pottery, entertained a number of friends at his home on Second street last evening.

F. W. Fowler, secretary of the Union Potteries company, of Pittsburgh, who was in the city yesterday, returned to Allegheny last evening.

W. A. Rhoads, salesman for the K. T. & K. pottery, left yesterday morning for an extensive western trip.

Thomas Pickall, a kilnman at the Buckeye pottery, was unable to work yesterday on account of illness.

George Kite, of the Dean, Kite Co., of Cincinnati, is in the city placing orders for early shipment.

Jack Clarke, of the Diamond pottery, spent last evening at Monaca. He returned this morning.

Harry Walcott has taken a position as kilnman at the Buckeye pottery.

The Dresden Pottery company will ship a car of ware to Marysville, Cal., Monday afternoon.

Eastern potteries are said to be making jardiniere a great specialty this season.

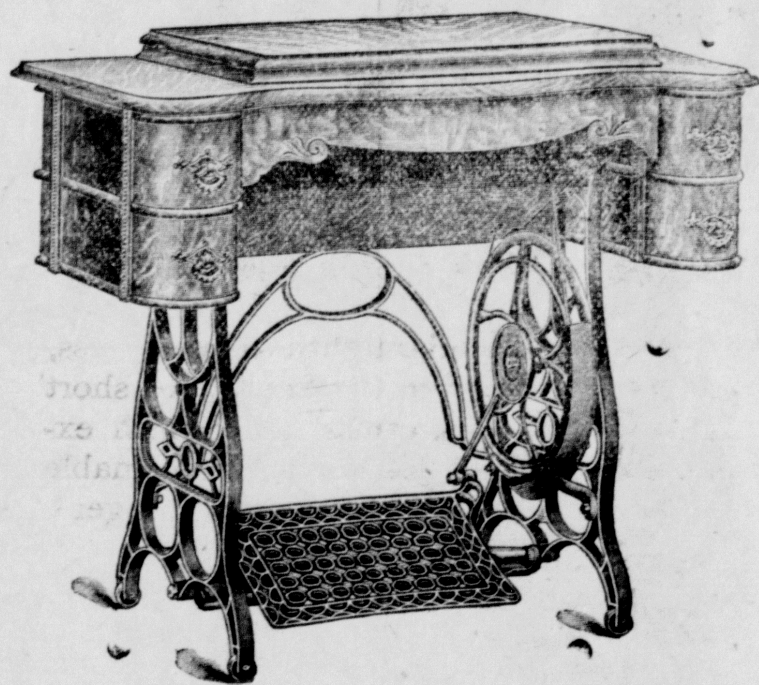

The McNicol pottery shipped a car of ware to Chicago yesterday.

Cablegram of Protest From Danish West Indies.

St. Thomas, D. W. I., Jan. 18.—The following cablegram, signed by a large number of persons, has been sent to Dr. J. H. Deuntzer, Danish minister of foreign affairs: "St. Croix, D. W. I., Jan. 18.—The planters, burghers and property-holders of this island urgently protest against the opinion of American capitalists being considered an adequate expression of the views and interests of this island, and petition your influence to keep St. Croix in the possession of Denmark on the sure assumption that Denmark can find the means to make the cultivation of sugar, now in a most critical position, remunerative to the island."

Smith Fowler is on the sick list. Miss "Tode" Allison is convalescent after an attack of malaria. Miss Alma Croxall is absent from her duties in school as a result of illness.

Mrs. Edwin M. Knowles left yesterday for London, O., to visit relatives.

Miss Gladden, a teacher in the city schools, who has been quite ill, is again back at her work.

Mrs. William Foutts, of West Market street, is numbered among the sick from an attack of influenza.

John Nice, father of Mrs. J. R. Warner, of Sixth street, left recently for Charleston, S. C., where he will spend several weeks.

Miss Minnie Westlake, of Salineville, is confined to her bed with rheumatism at the home of Frank Earle, Seventh street.

Little Annie Heath, of Sixth street, who has been sick for weeks with typhoid fever and other complications, is able to sit up.

Thomas McCartney, of McKinley avenue, has returned to his home after a visit with relatives in the vicinity of Lisbon.

William A. Rhodes left yesterday for a trip through the western states in the interest of the Knowles, Taylor & Knowles pottery.

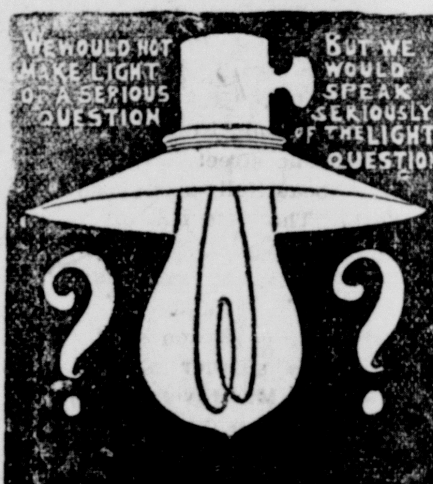

Mrs. Beatty, of Freedom, and Mrs. Rowley, of Pittsburgh, are visiting at the home of Mr. and Mrs. T. O. Terrence, Ravine street.

Mr. and Mrs. Alex Connell, of Sixth street, one of the most aged couples in the city, are both seriously ill from an attack of influenza.

Mrs. Richard Barlow, of Trenton, who has been visiting her daughter, Mrs. W. L. Smith, of Sixth street, for several weeks, returned to her home yesterday afternoon.

W. E. Beresford, of Cleveland, returned home yesterday after visiting friends here for several days. Mr. Beresford is chief clerk in the office of Supt. Scriven, of the C. & P. road at Cleveland.

WELLSVILLE

TO BUILD IN THE SPRING

Thomas H. Silver And Others Will Add to Wellsville Business Buildings.

Thomas H. Silver, the banker, has announced that in the early spring he will make some decided improvements to several of his many lots located on different streets in the city. Among the improvements contemplated is the erection of an elegant brick building at Fourth and Main streets. The new structure will be spread over the entire vacant lot and will much improve the looks of the public square. It is stated that the Union Printing company will occupy the first floor. Another marked improvement which is planned is to remove his portion of the Arcade building, fronting on both Main and Front street, and erect in its stead a beautifully designed business block. The first floor is to be arranged conveniently for the Adams Express company and the remaining portion rented to tenants.

Messrs. H. C. Wells and A. M. Lichenberger, on a smaller scale, will keep pace with Mr. Silver. They will also build in the spring. Mr. Lichenberger will locate his improvement on Main street. It will probably be a finely planned business block. Mr. Wells has given the contract for a dwelling house to be erected on his Second street lot. The house will be up-to-date in every particular.

GOT A BAD FALL

The Reason Liveryman James Moore Carries His Arm in a Sling.

James Moore, the West End liveryman, is suffering from injuries received by falling from a wagon when transporting the household goods of William Figley to Lisbon. Mr. Moore was perched high on a bed-lounge, when the wagon gave a sudden lurch, precipitating him to the ground. In his descent his left arm struck against a wheel. Mr. Moore is carrying the arm in a sling and will be incapacitated for work for several days.

Married in Marietta.

Miss Margaret Kane and George Cunningham, both of Belpre, were married on Monday at Marietta by Rev. W. E. Brinkman, says a Parkersburg paper. Miss Kane was one of the most popular members of Belpre society and Mr. Cunningham is a prosperous and popular young man of that place. Their marriage was a surprise to their friends, but they will receive their congratulations nevertheless. Mrs. Cunningham is a sister of Mrs. Jenken Hamilton, of the West End, and is now visiting her.

SUIT OVER A NOTE

The Alleged Maker Has No Recollections of Giving It And Will Fight.

Messrs. Dales and Jones Jackson, of Fairview, appeared before Squire Johnston yesterday and filed a suit against Thomas Gamble for \$26.93, alleged to be due them on a promissory note given them by Gamble January 3, 1892. Mr. Gamble has employed an attorney and will fight the case. He states that he has no recollection of ever giving such a note and is confident that he can prove his assertion, as the note only bears his mark as a signature and the names of no witnesses appear under the mark.

The case will be argued before Squire Johnston next Saturday afternoon at 1 o'clock.

New Street Car Schedule.

A new schedule for the running of street cars on the East Liverpool & Rock Springs railway has been arranged and will go into effect Monday morning. According to the schedule the first car will leave the barn in Chester at 5:30 a. m. and the last car will leave the Diamond at 12, midnight. Another car will be operated, which will give employment to another crew.

Sprained His Ankle.

William MacDonald, an employee of the American Tin Plate company, is off duty as a result of a sprained ankle which he received by carelessly jumping from a scaffold in the mill. He will be incapacitated from work for some time.

CHESTER NOTES.

Mr. and Mrs. William Powell, of Graysville, are visiting Otto Powell and family.

Harvey Thompson, a motorman on the street car line, is off duty owing to a severe attack of rheumatism.

Walter Walley, of New Cumberland, visited C. T. McCutcheon and family yesterday.

FAKING PUGS ARRESTED.

Maher and Sharkey Released on Bond and Then Try to "Film" the Spectators.

Philadelphia, Jan. 18.—Tom Sharkey and Peter Maher, the pugilists, and James H. McFarland, an official of the Industrial Athletic club, under the auspices of which organization the Sharkey-Maher fight took place last night, were arrested late yesterday afternoon on warrants charging them with conspiracy to commit a breach of the peace. They were held in \$5,000 to keep the peace, and appear in court this morning. Ball was furnished.

The warrants were sworn out by J. D. Barnitz, a citizen who, it is understood, represented the Law and Order society of this city. Witnesses were examined. The men promised that there would be no knock-out, no violence, and no infraction of the State laws regarding prize fights, and that they would engage only in a sparring contest. This promise was accepted. If they lived up to their promise they were to be discharged on their appearance in court this morning.

Fighters Tried to Fake.

The men met for the contest last night. When the bout had progressed for two and a half rounds amid incessant cat calls, hisses and yells of "take them off" and "fake," Referee Rocap stepped to the side of the ring and said that he had been engaged to referee a contest. "This is no contest," he concluded, and the men took their corners.

Both Sharkey and the president of the club attempted to address the angry crowd, but neither was permitted to speak. The spectators were worked up to such a pitch that they broke chairs and benches in their desire to "get even." It was little satisfaction for the 4,000 persons who had paid \$2, \$3 and \$5 for seats.

Ahead on Prayers.

A bishop traveling in the depth of winter came to a house of a presiding elder to spend the night. The weather was bitterly cold, and the bedroom into which the bishop was shown had a thick coating of ice on the windows. The elder waited to see the bishop safely between the feather beds. But when the bishop, half frozen, jumped into bed without stopping to say his prayers the elder remonstrated with him.

"You have forgotten to say your prayers," he said.

"No," answered the bishop. "I always keep 'prayed up' in preparation for nights that are as cold as this."

Natural as Life.

Two ladies who had not seen each other for years recently met in the street. They recognized each other after a time, and their recognition was cordial.

"So delighted to see you again. Why, you are scarcely altered."

"So glad, and how little changed you are! Why, how long is it since we met?"

"About ten years."

"And why have you never been to see me?"

"My dear, just look at the weather we have had."

HELP THE BOER PRISONERS!

Rev. Dr. Everett Hale Asks Contributions—Sad Conditions in Bermudas.

Boston, Jan. 18.—Rev. Edward Everett Hale, D.D., president of the Lend-a-Hand Society, which for months has been collecting and shipping clothing, food and other things to the Boer prisoners held by the British in the Bermuda Islands, recently sent his assistant, Rev. W. S. Key, to visit the prison camps and report on the conditions. He has returned. There are now about 5,000 men and boys in the prison laagers. All the prisoners complained of having no clothing excepting what they wore when captured. Some of them had not a change of underwear for sixteen months.

During Rev. Key's visit clothing was distributed, but hats, caps, socks, towels, handkerchiefs, underclothing, suspenders and soap, needles, thread, buttons and knives are badly needed. The short allowance of vegetables was complained of.

Rev. Dr. Hale asks for contributions of such food as oat meal, corn meal, condensed milk, all kinds of cereals, tea, coffee, peas, beans, rice, sago, evaporated apples, canned corn, desiccated vegetables, and tobacco for the old men. Money is also needed.

The Lend-a-Hand Society, Boston, receives and ships all contributions.

ADVISED BOERS TO ACT.

Dutch Premier Also Sounded England For Them.

London, Jan. 18.—Reuter's Telegram company has received the following dispatch from Amsterdam: "According to trustworthy information Dr. Kuyper, the Dutch premier, recently intimated to the Boer delegates the desirability, in view of Lord Rosebery's speech at Chesterfield, of their giving some intimation to the British government of the basis upon which they would entertain peace negotiations. Dr. Kuyper pointed out the improbability of any of the government powers intervening in South Africa in the near future, and suggested that he be allowed informally to sound his friends in London in the hope of a semi-official response. The Dutch premier accordingly met Abraham Fischer, the leader of the Boer delegates, and others at Brussels, where a long conference was held, after which Dr. Kuyper proceeded to London. The result of his visit, if any has been attained, is not yet known.

"It is understood that Dr. Kuyper distinctly assured the Boers that Holland, under no circumstances, would act as an intermediary."

Awful Experience of An Entombed Miner

Buried alive for four days in a smoking mine and rescued when nature was almost exhausted and about to succumb was what happened to Fritz Molter, a miner of Huntington, W. Va., who was caught in the recent explosion in the Baby mine.

Molter's own story of his imprisonment is an appalling one. Together with two other men he was on the day of the explosion at work in room No.

ON THE FLOOR LAY FRITZ.

20 of the Baby mine, when suddenly the air seemed strangely heavy and the men's lights grew dim.

He had scarce time to give the alarm and dash down the broad way toward what he hoped to be safety when a terrific explosion shook the mountain. Dazed, stunned and almost senseless, he staggered along he knew not whither.

For what he thinks must have been a period of two days he sat on the floor conscious, but every moment awaiting in fear another explosion which might be his death. The third day was a period of awful suffering. Meanwhile hundreds of watchers outside the mine were in an agony of fear. Relay after relay of men had been laboring at the work of relief until worn out.

Not a word was spoken. The men toiled like demons. Shovelful after shovelful of dirt whizzed through the air to clear the way for the picks that, welded by strong arms, seemed to sing a song of rejoicing. At last a small opening was made. Then the thin wall was cut through, and into the room dashed two or three of the foremost workers.

On the floor lay young Fritz Molter breathing, but that was all. In another hour the man would have been dead.

When the Rod Was Not Spared.

The change of thought and conditions of mankind is no better illustrated than by the history of the rod. In an article on the morals of the child by Dr. Grace Peckham Murray there is mention made of a Suabian schoolmaster who during his fifty-one years of superintendence of a large school had given 911,500 canings, 121,000 floggings, 200,000 custodes, 136,000 tips with the ruler, 10,200 boxes on the ear and 22,700 tasks by the heart.—Delineator.

No Joking Matter.

"Joaksmith, it appears, is married and has gone to housekeeping."

"Not at all. What made you think so?"

"He's been writing so many jokes about servant girls lately he must have had some experience with them."

"Nonsense! If he'd had such experience, he wouldn't joke about it."

BUSINESS SOUND.

Distribution and Prompt Payments, Except in a Few Southern Cities.

GAINS IN RAILWAY EARNINGS.

Nothing Disturbed Bright Outlook in Iron and Steel Industry—Wool Situation—Conditions in Wheat, Corn and Provisions—The Failures.

New York, Jan. 18.—R. G. Dun & Co.'s weekly review of trade will say: Readjustment of prices continued during the second week of January, and the general average reached a much lower point than prevailed when the year opened. Manufactured products were scarcely disturbed, but both staples and securities suffered. Business conditions are sound, liberal distribution and prompt payments being reported, except at a few southern cities. Cotton still fails to command a price proportioned to the estimated crop, and as a consequence the return to growers is insufficient to sustain business at the rate established by the previous year's most profitable yield. Transporting interests are less behind with deliveries, and railway earnings for the first week of January show gains of 7.4 per cent over last year's phenomenal figures, and 14.7 per cent over 1900.

Bright Outlook Not Disturbed. Nothing has transpired to disturb the bright outlook in the iron and steel industry. Deliveries of fuel are less delayed and furnaces operate more fully, while mills receive material with a fair degree of promptness. Quotations are maintained firmly, especially for pig iron, which is in great demand. Large contracts have been placed for Bessemer at \$16.50 on Pittsburgh deliveries in June. Spot sales in small quantities are much higher. Structural material is taken almost eagerly and more foreign bridge contracts are reported. Billets cannot be had in sufficient bulk from domestic producers, so that imports from Germany are sold at Youngstown for \$27.50. Production of pig iron on January 1, according to Iron Age, was 298,400 tons against 324,761 at the high point on December 1.

During the last two weeks conditions have improved so rapidly that the present rate of output is probably at about the top point. Stocks at the furnaces showed a further decrease to 216,137 tons on January 1. Sales of copper are made at 11 cents, which makes a somewhat striking comparison with the 50 per cent higher figure of a few weeks ago.

Advanced Prices of Footwear. Footwear producers have at last made a general advance of from 2 1/2 to 5 cents. Wholesalers have not altered lists. Hides are weaker, which is natural at this season, when the quality deteriorates. Stocks of cotton goods are not burdensome, and demands generally expand with the advancing season, especially for fine grades. Heavy brown goods move slowly, both on home and domestic orders. Woolen goods opened lower than expected, and purchases were retarded rather than stimulated by the declines. Changes were few and small, yet there had been such confidence in a higher level that the trade hesitated. Woolen and worsted yarns tend upwards.

Grain reacted sharply from the high point, and a large western operator was caught with more than he could carry. Forced liquidation of this long account facilitated the work of manipulators for a decline. Another unsatisfactory feature was the recent falling off in foreign demand, official figures for December showing smaller exports of wheat than for any

PLENTY OF PROOF

From People You Know—From East Liverpool Citizens.

The greatest skeptic can hardly fail to be convinced in the face of evidence like this. It is impossible to produce better proof of merit than the testimony of residents of East Liverpool, of people who can be seen at any time. Read the following case of it:

Mr. P. J. Green, veterinary surgeon, says: "When attending a sick horse belonging to Mr. G. H. Gardiner, of 168 Jackson street, he remarked to me that the horse seemed to be in pain. I replied that I was the sicker of the two, as I could at that time scarcely straighten up with my back from lameness, weakness and severe pains. He asked me what my symptoms were and I explained to him that I had suffered for a number of years from my kidneys, that I had attacks at times when nothing helped me, and it was agony to get around, but that I could not endure idleness. The secretions from the kidneys were very high colored and acidulous; that I had spells of dizziness when I could see black specks floating before my eyes and felt generally broken up. He looked up and said he had the very thing I needed to cure me in his house—Doan's Kidney Pills. He went into the house and brought me eight pills. I took them with me and I used them two at a dose. The effect was astonishing. I felt it almost at once, and went to the W. & W. pharmacy and bought a box and took them. The encouragement held out to me by the first eight pills was not mythical, as by their continued use the improvement continued and I consider no expression of praise too strong for Doan's Kidney Pills; in short, they are no plus ultra."

month of the calendar year, although for six months of the crop year there still appears a gain of about 50,000,000 bushels over the corresponding months of 1900 or 1899. This week's exports were 4,348,431 bushels against 3,468,725 a year ago. Corn declined sharply, but still remains about 20 cents a bushel above the price of last year. Exports in December were only about 6 per cent of the output in the same month of 1900, while for the week Atlantic ports sent out 128,674 bushels against 4,695,320 bushels a year ago. Provisions weakened slightly in sympathy with grain, yet the higher level of prices in December established a new monthly record in value of exports.

Activity at Coffee Exchange.

Great activity occurred at the coffee exchange, where speculators for a decline were successfully aided by enormous receipts at Brazilian ports and American stocks 150 per cent larger than were held a year ago.

Failures for the week numbered 334 in the United States against 325 last year, and 40 in Canada against 43 last year.

FOR MEMORIAL OF M'KINLEY.

Request of Governor Nash Complied With, in Nearly All States and Territories.

Cleveland, O., Jan. 18.—The request by Governor George K. Nash, of Ohio, to the governors of all the States and Territories to join with him in asking the people to properly observe the 50th anniversary of the birth of William McKinley, has met with immediate and hearty response. Nearly every governor has either issued a proclamation or semi-officially requested that there shall be memorial services on the Sunday preceding January 26th, in all the churches; that contributions be there received, and that all people testify by their voluntary offerings their love and devotion for the dead President. In many States, notably Kansas, public schools will hold special exercises, and give to the fund.

In any community where there is no local auxiliary of the McKinley National Memorial association, contributions by business, fraternal or labor organizations, schools or churches, may be sent to the treasurer, Myron T. Herrick, Cleveland, O. The funds will be applied to the erection of a fitting memorial tomb to William McKinley, over his last resting place at Canton, O. Judge William R. Day, ex-Secretary of State, is president of the association.

FRYE'S SHIP SUBSIDY BILL.

Senate Committee on Commerce Authorized Favorable Report.

Washington, Jan. 18.—The Senate committee on commerce yesterday authorized a favorable report on Senator Frys ship subsidy bill. The report will be made by Senator Frys Democratic members of the committee voted against reporting the bill. They also voted solidly for a motion offered by Senator Mallory to strike out the general subsidy provision of the bill. The committee made several amendments to the bill. The most important were: Allowing mail-carrying vessels under the bill to be either iron or steel instead of steel as originally provided, and another reducing to one thousand gross registered tons the vessels receiving a bounty under the bill.

Type Founders Increase Capital.

Trenton, N. J., Jan. 18.—The American Type Founders' company filed papers increasing its capital from \$4,000,000 to \$6,000,000. The company's authorized capital was at one time \$9,000,000, but this was subsequently decreased to \$4,000,000.

FOLLIES OF FASHION

SARTORIAL VAGARIES OF THE CENTURIES THAT ARE GONE.

Grotesque Styles That Reigned in the Time of Chaucer—Raiment That Rivalled the Rainbow and Men Who Starched Their Beards.

It is a little gratifying to reflect that, however the man of today may compare with his ancestors of bygone centuries in physique and morals, his dress is much more moderate and inexpensive, even if it is less picturesque, than theirs.

It is true that here and there one may find some foolish young man whose taste in dress is as extravagant as that of any "back" of the days of the Georges. There is, for instance, a son of a well known peer who has the reputation of never wearing a suit twice. He has a wardrobe of waistcoats of all the colors of the rainbow, ranging from a light blue spangled with silver stars to a deep green satin with buttons of eighteen carat gold, each of which is adorned with the painted face of a beautiful woman.

Another wealthy aristocrat is credited with having as many suits and uniforms as there are days in the year and with spending on his tailor's bill a sum which would pay the yearly salary of a minor cabinet minister.

But such men are modestly arrayed compared with the dandies of many a past century. The earl of Northumberland who lived in the latter part of the fourteenth century boasted no fewer than sixty suits of cloth of gold alone, and the bishop of Ely of that time had a change of raiment for every day of the year.

Much later, in Queen Mary's time, the wardrobe of a bishop might have been the envy of Solomon for the variety and costliness of its contents, and even a simple village priest, according to Fuller, wore "a vestment of crimson satin, a vestment of crimson velvet, a stote and fason set with pearl, gowns faced with taffetas, etc."

In the days of Chaucer fashionable men wore clothes as many colored as Joseph's coat, so that "while one leg would be a blaze of crimson the other would be tricked out in green or blue or yellow, without any regard to harmony or contrast."

Even as late as the middle of the eighteenth century a dandy would deck himself in "a vivid green coat, a waistcoat of scarlet, yellow breeches and blue stockings," and the gentleman of a few years later wore, among similar sartorial vagaries, "a coat of light green, with sleeves too small for the arms and buttons too big for the sleeves; a pair of Manchester fine stuff breeches, without money in their pockets; clouded silk stockings, a ddb of hair behind larger than the head that carries it, a hat of the size of a sixpence on a block not worth a farthing."

At one fashionable epoch our ancestors, to quote the words of a quaint chronicler, "would wear clothes so tight to ye skin that it might well be conceived they wore no clothes at all," and at another they would wear them "so voluminous that a single suite might well have afforded raiment for a whole familie, and so stuffed out with feathers that, of a verity, their wearers resembled nothing so much as walking sacks."

At another period it was the grotesque fashion to combine on one person the dress of all the countries of Europe—the hat would be Spanish, the coat French, the trousers Turkish, and so on—so that the wearer was a "walking epitome of the dress of a continent."

At one time, shoes would be worn with square toes of such width that a royal proclamation was issued limiting the width to six inches, and these shoes were succeeded by others which came to the finest of points at the toes.

In Henry II.'s time shoes with points two feet long were worn by the fashionables, and in the reign of Henry IV. these points had grown to such an inordinate length that in order to be able to walk at all it was necessary to attach the tips to the knees by chains, which were of gold or silver, while the tops of the shoes were carved with all kinds of fantastic designs.

In the early part of the eighteenth century it was a common thing for a man of fashion to spend several hours a day with his valet, among the many quaint operations being "the starching of the beard and the proper perfuming of garments, the painting of the face and anointing with oils, tinctures, quinquessences and pomatums." It is even said that some of the dandies of the time bathed in wine and milk "for the preservation of their complexions and the rejuvenation of their energies."—London Tit-Bits.

Be Explained.

At a school one day a teacher, having asked most of his pupils the difference between an island and a peninsula without receiving a satisfactory answer, came to the last boy.

"I can explain it, sir," said the bright youth. "First get two glasses. Fill one with water and the other with milk. Then catch a fly and place it in the glass of water. That fly is an island, because it is entirely surrounded by water. But now place the fly in the glass of milk, and it will be a peninsula, because it is nearly surrounded by water."

The boy went to the top of the class.

KIDNEY DISEASE AVERTED. THEY are HERE

Some Rules for People of Sedentary Habits.

How to Detect This Approaching Trouble and Nip It in the Bud.

Sedentary habits cause kidney troubles. People who are obliged to sit all day long, stenographers, telephone and telegraph operators, seamstresses, milliners, shoe makers, tailors, book keepers, clerks who stand over a counter, engineers, firemen, conductors, brakemen, and others on steam and electric railroads, are all more or less affected with disease in the kidneys. Long hours in a sitting posture cramps the kidneys, bowels and other organs in the pelvic regions. You will find that nearly everyone of these people has constipation, and a great many more of them have kidney troubles and don't know it. Often incipient Bright's disease will fasten itself upon a person and the only indication of anything wrong that the layman can discern is a slight aching or tired feeling across the small of the back. This goes unheeded because it is itself apparently of no great consequence. Let the knowing physician examine the water, when these symptoms are manifest, and he'll find a clouded, discolored, albuminous fluid that tells as plainly as a picture that inside of these delicate and important organs there exists a condition of disease such as to need quick and powerful treatment in order to preserve them from decay and save the life of the owner. Always be on your guard for the slightest pain or soreness across the back. Don't let it go unheeded for at that very instant your kidneys may be in an awful condition. When healthy they perform an important function, that of filtering and purifying the liquids that pass into your system. They do it so carefully too that not the most infinitesimal speck of foreign or disease-breeding matter can get into the vitals of the body. While they are healthy, they do more toward keeping you well than any other organ of the whole anatomy. When they are impoverished and weak, unable to stand as the barrier against disease, it's like throwing down the protecting walls and picket lines of a great city and letting the enemy, unimpeded, walk in. Think of these precious organs becoming enfeebled through want of nourishment. Think of them instead of being plump, vigorous, healthy, of being thin, lifeless, almost bloodless, eaten full of holes and secretion, a pus that would make you hold your nose, could you see it. Think of them in their struggling attempt to obey nature, pouring this filthy and disgusting mass into your lungs, heart and everywhere over the body, on account of their inability to eject it through the proper channels and out of the system.

Does this appear to you as being healthful? Yet you, though not suspecting it, may be in this very position. If you have a running sore on your arm, you would bathe it carefully with warm water to cleanse it, then tenderly cover it with some healing lotion. This much to protect it from the poisons in the air, and to assist your internal medicines to act more thoroughly. Your kidneys act more washing as much as your arm. You need to flush out that pus and secretion and assist nature to restore healthy action. You need something known to go direct to your kidneys through the blood and that has a healthy effect. "Blood

Wine" will do this and so marked is its action on the kidneys that you can actually feel it working on them within a few minutes after taking a dose.

It gives them just the kind of bath they need and it heals up the sore. It takes away the smarting, burning, painful, dragged-down, all-gone sensations, as if by magic. It takes sediments of all kinds out of the little nooks and corners where they lodge and cause brick dust, gravel, stone in bladder, inflammation, etc. If you have any of these troubles, or even if you have any of the slightest symptoms of kidney disease, you ought to protect yourself. It is easier to prevent than to cure any disease. A bottle of "Blood Wine," costing fifty cents, will often save off a serious trouble, and spare the patient's life, to say nothing of saving great expense and long suffering.

Read this expression of gratitude from a Worcester, Mass., woman, who has had an excellent chance to make a careful investigation of "Blood Wine." Mrs. Ann P. Stocking says:

MRS. ANN P. STOCKING.

"I live right here in the city where 'Blood Wine' is made. I have seen with my own eyes the cures it has effected all about me, and I have been cured myself of a very stubborn case of kidney disease. I suffered for several years, had all the symptoms that ever accompanied such a trouble, and tried about every remedy recommended. 'Blood Wine' was the last. I took it only after being convinced that it was a truly wondrous medicine, and it cured me. I went to the Louis Daudelin Co. and volunteered this statement, because I knew them to be honest, upright people and deserving of success. 'Blood Wine' will cure any form of kidney disease and do it quickly and thoroughly. Anyone so affected should try this great medicine just as soon as they can get their hands on a bottle."

Go to your druggist and look into it carefully; read the literature and ascertain for yourself just what it will do. It contains no wine or opiates.

"Blood Wine" costs fifty cents a bottle, but you can sample it free of charge at Will Reed's and Hodson's drug stores.

PRINCE DELIGHTED.

Henry Pleased Over Prospect of Paying Visit to the United States.

THE PRESIDENT ALSO GLAD.

Expressed Most Satisfaction at the Decision of German Emperor—Entered Reception and Details.

Washington, Jan. 18.—The firm of the White House yesterday, called at the White House yesterday, after discussing with President Roosevelt the details of the State department launch, went to the details of the launch and talked over details of the launch with Assistant Secretary of State, Mr. Evans, and Admiral Hill. It was decided that the launch shall occur at 10:30 a. m., February 25.

The President Highly Pleased.

The President expressed the most lively satisfaction at the decision of the German Emperor to send his brother, Prince Henry, as his personal representative at the ceremony, and has entered with great interest into the details of the arrangements for the reception of the Prince and for the launch.

Two plans are under consideration for the transportation of the President to Shooters Island, and a party to the launch.

BARON THEODORE VON HOLLEBEN.

where the yacht is building. One is to have the President meet Prince Henry at the battery in New York, where the party will board a United States government vessel and proceed down the bay to the island, nine miles distant; another is to have the President's car go over the Baltimore and Ohio railroad as far as Newark bay, where it will be switched on to the long trestle and the party embarked on one of the ship building firm's boats. The shipyard is only three-quarters of a mile distant from the trestle.

Rear Admiral Evans has been designated as a special attendant upon the Prince beside being in charge of the naval demonstration. He has arranged to have the escorting squadron under his command meet the North German Lloyd steamer Koenigsberg at Tompkinsville, at which point the Prince will be transferred to the Hohenzollern, and the naval procession steam up the bay.

Count Seckendorff Delighted. Count von Seckendorff, marshal of the court, who will accompany Prince Henry to America, writes to an American friend in New York, that the Prince and the members of his suite are delighted at the idea of their trip to America, and talks of nothing else, cables the Berlin representative of the Journal and American. Seckendorff says he will be delighted to renew the acquaintance made on his visits to San Francisco and other cities in 1899 and 1900, of which he has the pleasantest recollections.

The foreign office declines to give the names of the Prince's suite. The German press is deeply interested in the trip.

PASSENGERS AND CREW SAVED.

Brought Ashore From Stranded Vessel By Breeches Buoy Apparatus. Waves Dashed Over Ship.

Ludington, Mich., Jan. 18.—The Pere Marquette Railway company's steamer No. 3 struck the bar at the mouth of the harbor early yesterday while attempting to enter in a high southwest gale, and was scuttled in the face of water. The nine passengers and the crew of 35 were taken off the wrecked craft by the life-saving crew with their breeches buoy apparatus. The No. 3 lies 150 feet from the end of the pier and 200 feet from the shore with the great waves dashing over her decks. She is really a mass of ice.

The accident occurred before daylight. Passengers and crew were rescued by the success of the breeches buoy apparatus. The ship was then hauled ashore and when day broke there was a line 200 feet long stretched from the pier to the boat and the breeches buoy apparatus was ready for use. Over this line nine passengers, four of whom were women, and the crew of 30 were safely taken off the wrecked steamer in two hours. It was a thrilling rescue. As the people were drawn along the rope they were broken over them, and all were rescued by the icy water when they reached the pier. The boat was loaded with 25,000 bushels of barley and 200 tons of merchandise. The stranding occurred

NEELY WAS ON THE STAND.

Testified as to Surcharged Stamps Denied He Gave \$4,000 to Straighten Accounts.

Havana, Jan. 18.—The cross-examination of Esteban G. Rathbone, ex-director general of posts of Cuba, at yesterday's session of the court which is trying the charges growing out of the Cuban postoffice fraud, brought out no new facts. Counsel for W. H. Reeves, ex-deputy auditor for Cuba who is also on trial, endeavored to put the responsibility on Rathbone for the neglect on the part of Cuban postmasters to render monthly statements. Rathbone insisted that it was Reeves' duty to report irregularities of this kind.

C. F. W. Neely was called and examined by the fiscal. He said in part that when the stamps were burned a certain amount was reserved for collectors, but that he did not know how many, and that after the sales to collectors fell off he gave the surcharged stamps to Senor Moya, a Cuban stamp clerk in the Havana postoffice, instructing Moya to sell them. He asserted he took the money resulting from these sales and put it in the vault. Neely made no record of these stamps, nor did they.

Neely denied having any interest in the Cowan Printing company, of Muncie, Ind., and that he had not received \$3,000 as commission from the Lock Box company that put in the lock boxes in the Havana postoffice. He explained that this company was the lowest bidder for that work.

Neely was confronted with Reeves, who reiterated his statement that Neely gave him \$4,600 before leaving to make the books tally. Neely answered that this was not so, and said that he was with an employee of the postoffice at the hour named by Reeves in his statement. At the request of Neely's counsel this employee will be summoned to testify.

AUNT OF DUCHESS CUED.

Property of Miss Evans Attached by a Paris Banker.

Cincinnati, Jan. 18.—A suit in attachment was filed by A. A. Taquin, a Parisian banker, against Miss Evans, of this city, an aunt of the Duchess of Manchester, for 2,800 francs. The suit is on a draft drawn on herself, March 4, 1898, and not paid.

The real estate of Miss Evans is attached. It is said the money obtained on the draft was used for expenses connected with the wedding of Miss Zimmerman and the Duke of Manchester. Miss Evans, at the time was in Paris with her niece.

Travelers to California.

Naturally desire to see the grandest and most impressive scenery en route. This you will do by selecting the Denver & Rio Grande and Rio Grande Western, "The Scenic Line of the World," and "The Great Salt Lake Route," in one or both directions, as this line has two separate routes across the Rocky mountains between Denver and Ogden. Tickets reading via this route are available either via its main line through the Royal George, Leadville, over Tennessee Pass, through the Canon of the Grand river and Glenwood Springs, or via the line over Marshall Pass and through the Black Canon of the Gunnison, thus enabling the traveler to use one of the above routes going and the other returning. Three splendidly equipped fast trains are operated to and from the Pacific coast, which carry through standard sleepers daily between Chicago, St. Louis, Denver and San Francisco. Dining cars (service a la carte) on all through trains. If you contemplate such a trip, let us send you beautifully illustrated pamphlets, free. S. K. Hooper, G. P. & T. A., Denver, Col. 7-13-31

SOME SHOW OF STRENGTH.

Evident in Stock Market Friday. Increased Activity—Some of the Features.

New York, Jan. 18.—There was increased activity noted in the stock market yesterday and a show of strength, but the dealings did not rise much over half a million shares and were largely congested in the few stocks which were favorites in speculation. Professional manipulation had not a little to do with the advance in prices at some points, and the movement was clearly directed against the short interest which had been accumulating during the downward course of prices this week. The recovery from a recent illness of a leading operator, who is commonly credited with the leadership of the protective forces of the market on the bull side, was believed to explain an important part of yesterday's transactions. The factors which accounted for the rise were partly in the shape of vague intimations and general assertions, rather than of explicit information. Thus statements were circulated as to the phenomenal earnings of the anthracite carriers, which were asserted to reach 13 and 20 per cent for the leading high-priced stocks. There was no difficulty found in marking up these stocks, and there was a very heavy demand at the same time for the lower-priced stocks in the group. The movement was extended in some measure by sympathy to some of the soft coalers. There was continued strength in the southwestern railroads as a group at advances of 1 to 3 points. This might be accounted for by reports of much needed rains in Texas.

Industrials More Prominent.

The industrials as a group came forward into rather greater prominence than of late. Such conspicuous stocks as Sugar, Amalgamated Copper, General Electric and the local traction, showed gains of 1 to 2 points. American Tobacco gained another 35 points yesterday. Very glowing accounts were put out of the rate of expansion of the tobacco business. American Tobacco preferred, gained 6, and the Consolidated Tobacco company's bonds were strong and active.

Late in the day St. Paul was bid up quickly nearly 2 points, and other grangers and Pacific hardened in sympathy. This late movement was the effective factor in keeping the closing firm, as a wavering tendency had developed before St. Paul's rise. The bulls had in their favor the prospect of a strong bank return to-day.

The railroad bond market was active and strong, mortgages of railroads in the Southwest being in particular favor. Total sales, par value, \$4,075,000.

United States bonds were all unchanged on the last call.

Capt. Armstrong Dead.

Huntington, W. Va., Jan. 18.—Captain John Alexander Armstrong, aged 74, one of the best known river men between Pittsburgh and Cincinnati, died in the hospital here yesterday. He lived at Point Pleasant, where he operated the largest docks on the Ohio river. He was president of the first line of steamers that ever towed coal from Pittsburgh to the South. The burial will be at Wheeling to-day.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Entertained Friends—Mrs. J. R. Warner pleasantly entertained a number of friends at her home on Sixth street Thursday evening.

Pastor Gladden III—Rev. W. H. Gladden is confined to his bed by illness. Services will be held at the First M. P. church tomorrow as usual, however.

Elks' Annual Feast—At the Elks' home on February 4 there will be held their annual feast, dancing and supper, and a very interesting time for the Elks and their friends is anticipated.

Erecting Another Wire—A gang of linemen are in the city putting up another wire along the C. & P. division between Alliance and Pittsburg. They reached East Liverpool from the west yesterday.

HOSPITAL BENEFIT

Big Rummage Sale in Progress And Another Soon to Open.

The Hospital association rummage sale was begun this morning at Hodson's old store on Broadway. Several sales were made yesterday before the opening and signs indicate great success.

Another rummage sale will be opened on Tuesday on Sixth street, just a few doors above the rooms used for that purpose several months ago. It will also be under the auspices of the Hospital association. Contributions are earnestly solicited from all persons interested in the hospital.

SEEN IN PITTSBURG

J. N. Smith, Who Disappeared, Is Said to Be in the Smoky City.

It is said that J. N. Smith, who mysteriously disappeared from his home in this city several months ago, has been seen in Pittsburg. Friends have been notified and an effort will be made to locate him.

Entertained at Euchre.

Mrs. J. R. Warner on Thursday night entertained a number of friends at her home on Sixth street. Progressive games were the amusement of the evening. Light refreshments were served and the affair was much enjoyed.

A FALSE REPORT

John R. Reark Has Not Withdrawn From the Race for Township Clerk.

To the Voters of the City:
I wish to deny the statement that I have withdrawn from the race for Township Clerk. I will state that I am in to stay to the end and ask all to consider my case and if possible lend me their support and influence. I intend to meet every voter in the city before the primaries if I can. I would kindly call their attention to the fact that as I am compelled to work almost every day, I will only have a limited time to make my canvass. Thanking my friends for past favors and hoping to continue the same, I am, Very truly yours,
JOHN R. REARK.

ALL HIS CHARGES STRONGLY DENIED

MRS. WILLIAM STERLING SAYS HER HUSBAND FABRICATED.

Has Proof That She Is Not Guilty And Was Much Wronged.

The local police are congratulating themselves because they ignored the stories told them by William Sterling, who came here from Connellsville, Pa., a few days ago, as they are convinced that he grossly deceived them. Not only did he lie, it is claimed, when he told about being robbed by his wife, but his story concerning her elopement with a boarder named Smithour has also been proven false.

Mrs. Sterling, who is staying at the home of a friend, was interviewed by a reporter. She is an intelligent and sensible woman and is almost distracted as a result of her husband's actions. She denies every charge he makes against her and has an abundance of proof to show that all stories he told the officers here were manufactured by him.

The woman says her husband, who is an engineer, has not worked on a railroad for three years. She also says she left him last November because of his drunkenness and extreme cruelty. "He beat me time after time," said Mrs. Sterling, "and just before I left him he threatened to murder me. I kept boarders to support him and I can prove every word I say."

Friends of the woman told the reporter some shocking stories of how her husband had abused her, and ridiculed his claim that he had money in a building and loan company. They say he has been drunk for months and is on the verge of delirium tremens. The police are also of the same opinion.

Any person talking with Mrs. Sterling could not help but pity her. Her features bear out her stories of cruelty and the unmistakable look of honesty in her eyes cannot fail to instantly dispel any suspicion that she would be guilty of such a crime as her brutal husband has charged her with.

Chief Thompson has become indignant since learning the true circumstances of the affair, and it is likely that if Sterling comes back here he will be called on for an explanation of his conduct.

THOSE SHANTYBOATS

PROPOSITION TO TAX THEM CAUSES SPECULATION.

The Agitation Concerning the Improvement of Broadway Wharf Strongly Approved.

Discussion by members of the city council relative to the collection of taxes from the shanty boat denizens for wharfage meets with some speculation as to the practicability of such a ruling. A shanty boat man could move his boat and contents across the river or to some other unattachable spot prior to the appearance of the collector without very much exertion.

It is likely that the city wishes to reach more effectively certain firms or business men from whom a just rental for the use of the river front might be required. A charge of \$50 per year is made against the owner of the wharf boat and to this there is no objection. That is the prevailing charge by towns along the river to the owners of wharf boats, save at Wheeling the special tax is \$60 per annum.

Agitation in the council relative to the paving of the wharf at the foot of Broadway is meeting with favor, and an ordinance will no doubt be drawn up and passed, authorizing the improvement. Special annual taxes against users of the river front, who are entitled to pay for their privileges, would soon meet the expense in paving and otherwise making much better for the public the vicinity of lower Broadway. The improvement would also be of value from an esthetic standpoint that could go unquestioned.

Cincinnati has a similar topic under discussion. Her people are after a more attractive water front, and a few weeks ago, a meeting was held in which it was argued that there should be no charges against those engaged in river transportation or for wharfage, that the city had profited commercially by having river competition with the railroads in shipping, and that no obstacles should be thrown in the way of transportation by water.
